I.4) Type of the contracting authority

Regional or local authority

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

ETE010 Highways Laboratory Test Data and UKAS Quality Management System Purchase

Reference number

DN527842

II.1.2) Main CPV code

- 72000000 - IT services: consulting, software development, Internet and support

II.1.3) Type of contract

Services

II.1.4) Short description

The Council is seeking an externally hosted Highways Laboratory Test Data and UKAS Quality Management Solution. The Contract will be based on an initial 5 year period with options to extend for a further 5 years to a maximum contract period of 10 years.

II.1.5) Estimated total value

Value excluding VAT: £275,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKF - EAST MIDLANDS (ENGLAND)

II.2.4) Description of the procurement

To comply with its legislative obligations to maximise value during the delivery of highway maintenance across the region of Derbyshire the authority employs a Highways Materials Laboratory. This facility is required to be at the forefront of all the road maintenance activities. Once the programme is identified for the next five years we start working on the sites. We are involved with the site from this point through to completion of any works.

The first task we are involved with is identification of the existing condition of the pavement, cores are extracted, logged and commented on – testing for contaminants is undertaken. The findings are recorded, located on a network plan and the new design takes this information to develop the detailed design.

During construction the laboratory attends sites and undertakes testing on site and removes samples for testing in the laboratory. Any system will need to have site based capability to record and calculate test results. This will need to interface with the lab based system and the network systems currently used.

We monitor samples and tests associated with :-

Soils

Aggregates

Asphalts

Concretes

Hazardous contamination such as Tar

Water Quality

Noise Levels

On Site skid resistance

On Site texture depth measurement

On Site longitudinal Regularity

On Site density

We undertake sampling and testing for both internal and external private clients, we invoice for the work we undertake. Invoices are made up of standard charges and additional time and add-on charges. In addition we run Profit and loss accounting and would like the system to

manage a basic review of ongoing financial position.

Many of the items of equipment within the laboratory have interface with lab system capability, where possible we would like to utilise this facility to reduce Technician interface.

The materials Laboratory manages under a UKAS quality system, the standards we work to are onerous. We are looking for the system to help with this requirement. It should include calibrations and Technician training records. Highlighting any irregularities with full test compliance. For example if the Technician undertaking the test has not been reviewed for their annual competency in the test the system should say so. Likewise with equipment calibrations and the generation of annual quality review dates and records, standard formats for meeting minutes etc.

II.2.5) Award criteria

Quality criterion - Name: Quality / Weighting: 65

Quality criterion - Name: Information Security / Weighting: 5

Price - Weighting: 30

II.2.6) Estimated value

Value excluding VAT: £275,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

120

This contract is subject to renewal

Yes

Description of renewals

We are advertising a contract for an initial term of 60 months with optional annual renewal for a further 60 months.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions

List and brief description of conditions:

As detailed in the procurement documentation.

III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents

III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

III.2) Conditions related to the contract

III.2.2) Contract performance conditions

As detailed in the procurement documentation.

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Open procedure

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

29 March 2021

Local time

11:00am

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

IV.2.6) Minimum time frame during which the tenderer must maintain the tender

Duration in months: 9 (from the date stated for receipt of tender)

IV.2.7) Conditions for opening of tenders

Date

29 March 2021

Local time

11:00am

Place

Derbyshire

Information about authorised persons and opening procedure
