The requirement is to support the recruitment campaigns for Apprentices, Graduates and Signallers. There are several recruitment campaigns throughout the financial year for each of the recruitment category areas. Campaigns vary in volume and frequency depending on the candidate category.

Candidate management support is required to provide the campaign management programme with support to ensure candidates enjoy a positive and supportive experience through the recruitment programme.

The objectives of the service are to provide a well delivered candidate journey, ease of access to all testing stages and thorough interview processes with detailed briefing along the journey.

Each of the campaigns are large scale multi-site national campaigns requiring careful management and co-ordination to ensure the programme timelines are adhered to and the reputation of the company remains intact.

It is fundamental that these campaigns are delivered on time and to a high standard. Suppliers must identify a clear process for each candidate category with an end to end management process.
