This notice is an intention to award a contract under the competitive process for Lot 1 Health and Lifestyle Service to Everyone Health.

The approximate lifetime value of the contract is £578,361.59 (for 3 years total, with an option to extend for 2 years).

Contract Start Date: 1st April 2025

Contract End Date: 31st March 2030

The service is to promote health, weight management, nutrition and wellbeing.

The purpose of this procurement exercise was to appoint a provider to support the provision of Health and Lifestyle Support for Mental Health Services (North Staffordshire and Stoke on Trent) for North Staffordshire Combined Healthcare Trust NSCHT.

Weight management and promotion of positive lifestyles is complex, and this is especially true for people with severe mental illness. They are more likely to have common risk factors for being overweight, such as reduced access to healthy food, lower incomes and health conditions that limit their mobility. In addition, they have risk factors not typically faced by the general population, such as weight gain related to psychiatric medication and admission to inpatient wards with fewer opportunities to be physically active.

This service will not include smoking cessation support as it is anticipated that this will be a separately commissioned service in line with national aspirations for smoking support outlined in

the NHS Long Term Plan.

1 bidder has been selected as the highest overall scoring bidder and has been recommended as a successful bidder.

This service is an existing service. Everyone Health is the existing provider.

The contract award criteria was specified in the procurement documents. The procurement documents included the contract award criteria, including the agreed relative importance of key criteria (e.g., weighting, prioritisation) against which, bids were evaluated.

This process was a mixed procurement as Lot 1 and Lot 2 were considered to be health, but Lot 3 was not. The healthcare element was more than 50% of the total value of the 3 contracts and therefore a mixed procurement approach was taken, in accordance with PSR regulation 11 for the procurement of these 3 contracts.

appoint a provider to support the provision of a Future Focus Peer Coach (FFPC) Service within Mental Health Services (North Staffordshire and Stoke on Trent) for North Staffordshire Combined Healthcare Trust (NSCHT).

The objective of the FFPC Service provision is to enable Service Users to stay well in their recovery journey. The ways in which people are supported can be flexible, should be person centred and help people to make the best use of their community

resources. The Service will form a part of an integrated

pathway across the voluntary sector, primary and secondary care mental health and social care. It should be based on recovery and social inclusion principles and designed to be accessible and to

- The decision to award the contracts was approved by North Staffordshire Combined Healthcare NHS Trust (NSCHT) Executive Team.

All panel members completed and signed conflict of interest and confidentiality declarations.

The below potential conflict of interest was declared.

A member of the evaluation panel stated that they worked for a private company in the field of Podiatry.

This was reviewed by the commissioners who did not consider this to be an actual conflict of interest, as the private company did not bid to deliver any of the services within this process. This evaluator also attended evaluator training. This was not considered to be an actual conflict of interest.

No other conflicts were identified from panel members

Bidders were invited to bid for each lot

separately. Bidders were able to bid for more than one lot.

Bidders who submitted a bid over the maximum contract values, for each lot, would not achieve the score of a pass.

Bids which achieved pass / provisional pass criteria in the basic selection and quality pass/fail questions, were to be assessed for the below scored questions.

As part of the multi-lot tender, for questions in '01 Basic Selection' (Basic Selection and Quality Pass/Fail questions) and '02 Common Questions', completion was required once only.

The bidder then had to complete the service/lot specific

questionnaire (for Lot 1 and/or Lot 2 and/or Lot 3) which included the below relative key criteria.

Common Questions - Scored (33.00%)

- Quality & Innovation - 10.00%
