Description

TWFRA ('the Authority') is the publicly accountable body that oversees the policy and service delivery of Tyne and Wear Fire and Rescue Service ('the Service') on behalf of the community. The Service successfully leads the operational delivery of fire and rescue services such as public protection, fire and other emergency prevention, operational response and resilience. Our stations, staff and appliances are strategically placed across Tyne and Wear to ensure efficient and effective response to fires and other emergencies. Appliances work across station areas and can be mobilised whilst away from their home station. We also have robust arrangements with neighbouring services to enable additional support during major emergencies.

Tyne and Wear Fire and Rescue Service require a Training Tower to support realistic and effective firefighter training. This facility is essential for maintaining operational readiness and ensuring crews can develop and sustain the skills needed for safe and efficient

emergency response.

To deliver this critical infrastructure, TWFRS is seeking a suitably qualified contractor with the necessary technical knowledge, expertise, and a proven track record in constructing firefighting training towers. The contractor must be capable of delivering a structure that meets the required specification and complies with all relevant standards and best practices.
