Reference

C32534

Description

The principal purpose of this contract is to investigate incidences of bycatch. This is sensitive species of bycatch, otherwise known as PETS which stands for protected, endangered and threatened species. Incidental capture (bycatch) of PETS in commercial fisheries is a major threat to the conservation of marine megafauna. Injury or death to the PETS bycatch can have population level impacts, socio-economic consequences and can also affect the fishers wellbeing involved.

Monitoring our seas and taking mitigating action to protect PETS is a statutory duty for Defra under the Fisheries Act 2020. Through the Fisheries Act 2020, the UK Government has committed to minimise and, where possible, eliminate bycatch of sensitive marine species to ensure sustainable fisheries.

Contract 2. Bycatch Monitoring Programme (BMP) - 25-26

Supplier

- [University Court of the University of St Andrews \(USTAN\)](#)

Contract value

Yes

Procedure

Procedure type

Direct award

Direct award justification

- Single supplier - technical reasons
- Additional or repeat goods, services or works - extension or partial replacement

Several aspects of work under the current contractual arrangement have been delayed due to unforeseen circumstances outside of our control. This STA direct award will provide sufficient time to ensure that those delayed tasks are completed as well as on going objectives delivered whilst we retender for a new replacement contract. Under the Procurement Act 2023, Schedule 5, Paragraph 6 provides a key justification for awarding a public contract directly to the original supplier when continuity is essential.
