---

## **Section III. Legal, economic, financial and technical information**

### **III.1) Conditions for participation**

#### **III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions

To enable Cyngor Gwynedd to include these tonnages in their Reuse/Recycling/ recovery figures The Service Provider (Tenderer) must provide evidence that the methods used to process the waste materials will meet 'End of Waste' Criteria. For the aggregate fraction it must be shown that the mixed Gully Cleansings have gone through a treatment process that has treated it to a level that would make the recovered grit reach a classification as inert waste, which would be acceptable as a source waste for the Quality Protocol, converting Waste Code 20 03 03 to Waste Code 19-12-09. The recovered grit would also need to be tested to meet the relevant specifications for use as aggregate, which are set out in the Aggregates Quality Protocol..

#### **III.1.3) Technical and professional ability**

Selection criteria as stated in the procurement documents

### **III.2) Conditions related to the contract**

#### **III.2.2) Contract performance conditions**

As stated in ITT and Terms and Conditions Document

---

## **Section IV. Procedure**

### **IV.1) Description**
