Value excluding VAT: £240,000

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKN - Northern Ireland

II.2.4) Description of the procurement

Articles 4-7 of the Fire and Rescue Service (NI) Order 2006 and the Fire and Rescue Services (Emergencies) Order (NI) 2011 confirm NIFRS have a statutory responsibility to make provision for the removal of chemicals, biological or radioactive contaminants in the event of a chemical, biological, radiological or nuclear incident and ensure reasonable steps are taken to prevent harm to the environment.

Chemdata licencing is required for NIFRS to have access to safety critical chemical information whilst dealing with emergency incidents involving chemicals. Details include essential safety measures and PPE required when working with and around chemicals. Chemical knowledge and safety information is essential in keeping our emergency responders and the public safe.

Advice includes hazards, reactivity, firefighting, first aid and various other sources of specialist advice. Some of the objectives of the knowledge base are to assist with identification of chemical hazards at incidents, identification of response actions, protection of firefighters and minimisation of accident impacts.
