Justification for not providing organisation identifier

Not on any register

The contractor is an SME

No

V.2.4) Information on value of contract/lot (excluding VAT)

Total value of the contract/lot: £4,193,840

Section VI. Complementary information

VI.3) Additional information

'This is a Provider Selection Regime (PSR) intention to award notice. The awarding of this contract is subject to the Health Care Services (Provider Selection Regime) Regulations 2023. For the avoidance of doubt, the provisions of the Public Contracts Regulations 2015 do not apply to this award. The publication of this notice marks the start of the standstill period. Representations by providers must be made to decision makers by 17 February 2025. This contract has not yet formally been awarded; this notice serves as an intention to award under the PSR.'

Written representations should be sent to heather.ryder@surreycc.gov.uk

The award decision-makers were:

Dave McLean, Service Manager for the Targeted Youth Support Service (SCC); Tom Irving, Public Health Registrar; Heather Ryder and Martyn Munro, Adult and YP substance misuse commisisoners; Harriet Derret-Smith, Associate Director - Children's Integrated Commissioning NHS; Linda Cunningham, Surreywide CCG Designated Nurse for Looked After Children.

Through the assessment of their submission, the provider meets each of the key criteria listed as part of the PSR process.

Stand out points include:

1. Quality / innovation - the service has - and will continue to - develop to respond to the need of the population (11-24years). Catch 22 provide strong evidence-based interventions which are routinely assessed, and provide all staff with high levels of training opportunities.
2. Value - the service demonstrates good value; there has been no significant uplift for the provision of the service and opportunities to seek additional resources from the core Catch 22 service are explored, including training, safeguarding, access to specialist exploitation services etc.
3. Integration, collaboration and service sustainability - the service works collaboratively within the substance misuse system and wider health and social care partnerships, with well defined signposting opportunities.
4. Improving access, reducing health inequalities and facilitating choice - the service is provided through a child-first lens, ensuring that young people are met in a setting appropriate to them (school / home...) and that a range of tools are used to maintain

engagement with the young person. Additional health and social care needs are explored as part of the engagement with a young person. This will include information regarding sexual health, smoking/vaping, school attendance.

5. Social value - the service is in the process of recruiting an apprentice to work alongside the team. Learning opportunities are highlighted, and the provider has strong evidence of supporting young ex-service users in their training processes previously. The service meets young people in established settings, such as schools, youth clubs, homes, therefore reducing the impact of a maintaining a service building.

VI.4) Procedures for review

VI.4.1) Review body

High Court

London

Country

United Kingdom
