Procurement identifier (OCID): ocds-h6vhtk-05626a ([view related notices](#))

Published 16 January 2026, 1:21pm

Scope

Reference

24049

Description

The Authority has been managing Traffic Regulated Orders (TROs) in a paper format with a digital system being employed to manage Cambridge City's TROs since the early 2000s. The Authority will move exclusively to a fully digital system of managing TROs because of this procurement.

Currently the Authority produces circa 100 permanent TROs a year with another approximately 2139 (TTROs) being made annually. Permanent TROs will be almost exclusively map based (digital).

The contract is for the supply and support of an IT system that will manage the Authority's permanent and experimental TRO, allowing the Authority to draft, consult, make, display for the public and record TROs.

It may also have the capability to manage the County's network of Quiet Lanes pursuant to requirements laid out in the "The Quiet Lanes and Home Zones (England) Regulations 2006", and the "Transport Act 2000" s268.
