II.1.4) Short description

This corrigendum is to notify the market that the current competition for Future TBIS referenced 701638450 is being cancelled with the intention of releasing a new competition to fulfil this requirement.

Due to various delays on the release of the ITT the DPQQ that was previously undertaken is over one year old. The Authority believes proceeding with the current competition presents unnecessary risk regarding the information provided being outdated and potential changes in the supply market. It has also been identified that there were some omissions in the original Contract Notice, such as estimated Contract value and options years, which need to be corrected. Due to this, it was decided to cancel the current competition reference 701638450 and start a new competition to fulfil this requirement.

A new Contract Notice and DPQQ will be drafted for this competition and is estimated to be released in February 2023.
