Contract

## **Towards Predicting the Biodiversity Impacts of Environmental Change**

Joint Nature Conservation Committee

F03: Contract award notice

Notice identifier: 2024/S 000-003963

Procurement identifier (OCID): ocds-h6vhtk-0437ba

Published 6 February 2024, 7:05pm

### **Section I: Contracting authority**

#### **I.1) Name and addresses**

Joint Nature Conservation Committee

Quay House, 2 East Station Road, Fletton Quays

UK-Peterborough: Environmental services.

PE28YY

#### **Email**

[contractqueries@jncc.gov.uk](mailto:contractqueries@jncc.gov.uk)

#### **Telephone**

+44 1733562626

#### **Country**

United Kingdom

#### **Region code**

UK - United Kingdom

**Internet address(es)**

Main address

<http://www.jncc.gov.uk>

**I.4) Type of the contracting authority**

Body governed by public law

**I.5) Main activity**

Environment

---

## Section II: Object

### II.1) Scope of the procurement

#### II.1.1) Title

Towards Predicting the Biodiversity Impacts of Environmental Change

Reference number

C23-0382-1774

#### II.1.2) Main CPV code

- 73000000 - Research and development services and related consultancy services

#### II.1.3) Type of contract

Services

#### II.1.4) Short description

In November 2022, JNCC and the Statutory Nature Conservation Bodies published a joint statement on Nature Recovery. This set out the need to embed nature recovery in UK decision-making and to deliver impactful policies that incentivise and drive public and private investment in the protection and recovery of the UK's nature through all our activities. As envisaged in that statement, the global community has now committed to the ambitious Kunming-Montreal Global Biodiversity Framework. In May 2023, JNCC published a new strategy: Together for Nature (<https://jncc.gov.uk/about-jncc/our-strategy>); this further set out the need to advise on the design of new policies and actions to progress nature recovery. However, despite a strong evidence base on biodiversity in the UK, we currently lack the technical capability to use this evidence to model the impact of potential environmental, societal and policy trajectories on biodiversity.

#### II.1.6) Information about lots

This contract is divided into lots: No

#### II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £250,000

### II.2) Description

### **II.2.3) Place of performance**

NUTS codes

- UK - United Kingdom

Main site or place of performance

UNITED KINGDOM

### **II.2.4) Description of the procurement**

JNCC is seeking research partners to help develop a modelling framework for predicting the impact on biodiversity from changes to the environment over the next 25-50 years across the whole of the UK. This framework must identify and be responsive to critical drivers of biodiversity change, including climate, society, land use and land management. The framework must allow for different scenarios to be developed and run to assess how different societal and policy choices could affect biodiversity. The framework should be designed to model a range of different biodiversity measures including measures of both species and habitat outcomes to provide a holistic view of biodiversity change. Development of this modelling framework is likely to be a long-term endeavour. During the course of this contractual period, both the initial development and longer term planning

### **II.2.5) Award criteria**

Price

### **II.2.11) Information about options**

Options: No

### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

---

## **Section IV. Procedure**

### **IV.1) Description**

#### **IV.1.1) Type of procedure**

Open procedure

#### **IV.1.8) Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: No

### **IV.2) Administrative information**

#### **IV.2.1) Previous publication concerning this procedure**

Notice number: [2023/S 000-594162](#)

---

## **Section V. Award of contract**

### **Contract No**

C23-0382-1774

### **Title**

Towards Predicting the Biodiversity Impacts of Environmental Change

A contract/lot is awarded: Yes

### **V.2) Award of contract**

#### **V.2.1) Date of conclusion of the contract**

22 November 2023

#### **V.2.2) Information about tenders**

Number of tenders received: 4

Number of tenders received from SMEs: 1

Number of tenders received from tenderers from other EU Member States: 0

Number of tenders received from tenderers from non-EU Member States: 0

Number of tenders received by electronic means: 4

The contract has been awarded to a group of economic operators: No

**V.2.3) Name and address of the contractor**

UK Centre for Ecology and Hydrology

Maclean Building, Benson Lane,, Crowmarsh Gifford

Wallingford,

OX10 8BB

Country

United Kingdom

NUTS code

- UK - United Kingdom

National registration number

12251749

The contractor is an SME

No

**V.2.4) Information on value of contract/lot (excluding VAT)**

Initial estimated total value of the contract/lot: £250,000

Total value of the contract/lot: £249,650

## **Section V. Award of contract**

A contract/lot is awarded: Yes

### **V.2) Award of contract**

#### **V.2.1) Date of conclusion of the contract**

22 November 2023

#### **V.2.2) Information about tenders**

Number of tenders received: 4

Number of tenders received from SMEs: 1

Number of tenders received from tenderers from other EU Member States: 0

Number of tenders received from tenderers from non-EU Member States: 3

Number of tenders received by electronic means: 4

The contract has been awarded to a group of economic operators: No

#### **V.2.3) Name and address of the contractor**

UK Centre for Ecology and Hydrology

Maclean Building, Benson Lane, Crowmarsh Gifford

Wallingford,

OX10 8BB

Country

United Kingdom

NUTS code

- UK - United Kingdom

National registration number
