Contract

Towards Predicting the Biodiversity Impacts of Environmental Change

Joint Nature Conservation Committee

F03: Contract award notice

Notice identifier: 2024/S 000-003963

Procurement identifier (OCID): ocds-h6vhtk-0437ba

Published 6 February 2024, 7:05pm

Section I: Contracting authority

I.1) Name and addresses

Joint Nature Conservation Committee

Quay House, 2 East Station Road, Fletton Quays

UK-Peterborough: Environmental services.

PE28YY

Email

contractqueries@jncc.gov.uk

Telephone

+44 1733562626

Country

United Kingdom

Region code

UK - United Kingdom

Internet address(es)

Main address

<http://www/jncc.gov.uk>

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Environment

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Towards Predicting the Biodiversity Impacts of Environmental Change

Reference number

C23-0382-1774

II.1.2) Main CPV code

- 73000000 - Research and development services and related consultancy services

II.1.3) Type of contract

Services

II.1.4) Short description

In November 2022, JNCC and the Statutory Nature Conservation Bodies published a joint statement on Nature Recovery. This set out the need to embed nature recovery in UK decision-making and to deliver impactful policies that incentivise and drive public and private investment in the protection and recovery of the UK's nature through all our activities. As envisaged in that statement, the global community has now committed to the ambitious Kunming-Montreal Global Biodiversity Framework. In May 2023, JNCC published a new strategy: Together for Nature (<https://jncc.gov.uk/about-jncc/our-strategy>); this further set out the need to advise on the design of new policies and actions to progress nature recovery. However, despite a strong evidence base on biodiversity in the UK, we currently lack the technical capability to use this evidence to model the impact of potential environmental, societal and policy trajectories on biodiversity.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £250,000

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

UNITED KINGDOM

II.2.4) Description of the procurement

JNCC is seeking research partners to help develop a modelling framework for predicting the impact on biodiversity from changes to the environment over the next 25-50 years across the whole of the UK. This framework must identify and be responsive to critical drivers of biodiversity change, including climate, society, land use and land management. The framework must allow for different scenarios to be developed and run to assess how different societal and policy choices could affect biodiversity. The framework should be designed to model a range of different biodiversity measures including measures of both species and habitat outcomes to provide a holistic view of biodiversity change. Development of this modelling framework is likely to be a long-term endeavour. During the course of this contractual period, both the initial development and longer term planning

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Open procedure

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: [2023/S 000-594162](#)

Section V. Award of contract

Contract No

C23-0382-1774

Title

Towards Predicting the Biodiversity Impacts of Environmental Change

A contract/lot is awarded: Yes

V.2) Award of contract

V.2.1) Date of conclusion of the contract

22 November 2023

V.2.2) Information about tenders

Number of tenders received: 4

Number of tenders received from SMEs: 1

Number of tenders received from tenderers from other EU Member States: 0

Number of tenders received from tenderers from non-EU Member States: 0

Number of tenders received by electronic means: 4

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor

UK Centre for Ecology and Hydrology

Maclean Building, Benson Lane,, Crowmarsh Gifford

Wallingford,

OX10 8BB

Country

United Kingdom

NUTS code

- UK - United Kingdom

National registration number

12251749

The contractor is an SME

No

V.2.4) Information on value of contract/lot (excluding VAT)

Initial estimated total value of the contract/lot: £250,000

Total value of the contract/lot: £249,650

Section V. Award of contract

A contract/lot is awarded: Yes

V.2) Award of contract

V.2.1) Date of conclusion of the contract

22 November 2023

V.2.2) Information about tenders

Number of tenders received: 4

Number of tenders received from SMEs: 1

Number of tenders received from tenderers from other EU Member States: 0

Number of tenders received from tenderers from non-EU Member States: 3

Number of tenders received by electronic means: 4

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor

UK Centre for Ecology and Hydrology

Maclean Building, Benson Lane, Crowmarsh Gifford

Wallingford,

OX10 8BB

Country

United Kingdom

NUTS code

- UK - United Kingdom

National registration number

12251749

The contractor is an SME

No

V.2.4) Information on value of contract/lot (excluding VAT)

Initial estimated total value of the contract/lot: £249,650

Total value of the contract/lot: £249,650
