General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

1:1 Market Engagement Sessions - Nuclear Monitors Supply and Maintenance [amended]

II.1.2) Main CPV code

- 98113100 - Nuclear safety services

II.1.3) Type of contract

Services

II.1.4) Short description

This is to supplement the PIN that has just been published today inviting suppliers to further 1:1 market engagement sessions in relation to the RIMNET Nuclear Monitor Network procurement. The 1:1 sessions will take place during the weeks of the 28th February and 7th March 2022. The purpose of the sessions will be to learn from market expertise, finalise a deliverable specification and confirm the market's capability to deliver the requirement. BEIS requires suppliers to sign and return an NDA by COP Monday 14th February (the NDA is provided as an attachment in the relevant Tenderbox), so that background information including a full specification can be shared. Following the sharing of background documents, we will ask suppliers to sign up to a 1:1 session. An agenda for the 1:1 session has been uploaded to the relevant Tenderbox.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

UNITED KINGDOM

II.2.4) Description of the procurement

BEIS is the Lead Government Department for civil nuclear emergencies in the UK and operates the national network of radiation monitors. The procurement is to manage and maintain an existing estate of radiation monitors to an agreed service level that ensures BEIS has an effective solution to radiation monitoring across the UK. The objective is to leverage new technologies to improve the UK's radiation detection capability around civil nuclear sites, as well as maintain the support service for the existing national network of monitors. The competition will include the procurement of new assets to augment the existing network, and the procurement of a support and maintenance service for both new and existing monitor types in the network (and their associated data communications solutions). The terms of the support and maintenance service will include (but not be limited to): monitor fault response and rectification, repairs, calibrations and performance reporting.

II.2.14) Additional information

All supplier 1:1 sessions will be recorded for the purpose of responding to suppliers' questions and further developing the specification.

II.3) Estimated date of publication of contract notice

10 February 2022

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
