I.4) Type of the contracting authority

Regional or local Agency/Office

I.5) Main activity

Environment

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Supply of Temperature Sensors

Reference number

DN758755

II.1.2) Main CPV code

- 38000000 - Laboratory, optical and precision equipments (excl. glasses)

II.1.3) Type of contract

Supplies

II.1.4) Short description

The Met Office operates a network of circa.140 voluntary climate stations located across the UK. The voluntary observers who run these sites on our behalf are provided with instrumentation, including temperature sensors, all of which are regularly calibrated to national standards to contribute daily climatological readings. Readings are taken manually once a day from the sensor / thermometer housed within a Stevenson Screen. Quality controlled readings are then entered into the climate data record.

Our current network of temperature sensors are nearing end of life and we now need to source a replacement. Met Office therefore intends to conduct some early market engagement to determine what is currently available on/in the market to meet our requirements and will shortly publish a request for information (RFI) to aid us in this regard. If you would like to participate, please email lisa.marvin@metoffice.gov.uk and the RFI will be shared with you.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement
