2115105

Description

Hydrasun have been requested to support with a proposal for Gyrotron Pipework improvements at UKAEA, Culham Campus – as part of their EBW Water Cooling System project. This supplier was chosen as they have delivered the identical optical filters for all orders for optical filters to be used in polychromators over the past 15 years. They have always met the technical requirements, and we have had zero failures of all received and used optical filters.
