## **Scope**

### **Description**

As set out in our 2025 Strategic Plan, CITB is committed to mapping construction-related training provision across Great Britain to support targeted investment in areas of need and growth. Delivering this commitment requires a clear and comprehensive understanding of where construction training is currently taking place.

The purpose of this project is to produce a complete and up-to-date view of construction-related training activity across Great Britain.

A further competition was conducted under the CCS Framework RM6195: Big Data and Analytics; however, no bids were received. The Authority subsequently sought proposals directly from individual suppliers, following which the contract was awarded.

This is a one-off requirement with an anticipated duration of three months.
