II.1.4) Short description

Bromford is a leading provider of affordable housing and specialist housing support services, recognised for demonstrating industry leading financial strength and customer satisfaction. In a world where every penny counts, Bromford works hard to provide high-quality affordable homes, achieve significant value for money, provide strong social value and launch and maintain innovative and efficient services. The recent merger with Merlin Housing Society Ltd and acquisition of Severn Vale Housing to its group Bromford has increased the number of homes it owns to almost 44,000, including 12,000 in Gloucestershire. Over the next ten years, Bromford will be aiming to grow this through an ambitious development programme that will invest 1.5bm GBP to build 15,000 new homes across the Bromford geographical area.

The Bromford groups geographical area is predominately Central England and South West, which includes the West Midlands, Shropshire, Staffordshire, South Gloucestershire, Cirencester, the Cotswolds, Northamptonshire and Buckinghamshire.

To support these plans Bromford is seeking to procure a framework of design partners to support successful delivery of the affordable housing developments.

The Design Framework is likely to be split into core work stream lots which will be confirmed within the tender documents and contract notice but is likely to be:

Architectural

Civil Engineering

Structural Engineering

Bromford is committed to ensuring fairness, openness and transparency, therefore company information including introductory, marketing or other materials is not required and should not be provided to Bromford. A fixed point of contract has been provided for this PIN and interested partners are requested not to contact any other individual/team at Bromford or its advisors.
