#### **II.1.4) Short description**

Established in 2004, Procurement for Housing (PfH) is a national procurement consortium dedicated to the social housing sector and supported by the National Housing Federation (NHF), Chartered Institute of Housing (CIH) and HouseMark. Collectively our Members manage more than 75% of UK' social housing stock, with PfH helping them to achieve efficiency savings using a wide range of services including framework agreements, spend analyses, strategy reviews, consolidated billing and comprehensive reporting.

PfH is a contracting authority under Regulation 2 of the Public Contracts Regulations 2015 ("PCR 2015") and a central purchasing body under regulation 37 PCR 2015

PfH has sought to establish a national Framework Agreement for Telecommunications, Digital Inclusion, Internet of Things and associated services.

The Framework will be awarded for an initial period of three years and may be extended for a further year (4 years in total)

The framework is intended to provide services and associated products relating to networking and security including cloud based solutions, voice solutions, unified communications, mobile communications and total communications, in addition to providing solution to support digital inclusion and solutions utilising the Internet of Things technologies.

For further information please refer to the procurement documentation.

### **II.2.4) Description of the procurement**

Lot 6 will provide members a full range of connectivity solutions all focused around IOT connectivity and data, which will enable members to identify, monitor and measure sensors within any environment. It is thought that the application of IOT is highly likely that members will be focused on solutions which support them in improving the services provided to PfH Member Customers thorough many different applications, for example, monitoring boiler performance, smoke alarms, fire alarms, heat alarms, legionella, humidity, energy consumption, water consumption, although this is not an exhaustive list and is likely to develop over the course of the framework.

Members call off requirements will vary in respect of volume and requirements, members will require a range of services from ad-hoc small volume trials, to a fully tailored and owned gateways with application integration, therefore the Supplier will need to provide a fully inclusive solution as detailed within the scope of this framework agreement, in order to fulfil the specified member requirements.

This lot is split into two sub lots;

Lot 6a – Shared Solutions – This lot is directly relevant to solutions where connectivity is provided on a shared gateway basis.

Lot 6b – Private solutions– This lot is directly relevant to solutions where connectivity is provided on a private gateway basis and is highly likely that the Customer will purchase and house the gateway within location which the Customer owns and/or leases, but ultimately has access and control of access to.
