Description

The Agency is seeking to establish a working solution that supports the development of an Animal Management Database—a strategic investment for the MHRA. This system will enable real-time electronic record-keeping and reporting to strengthen compliance with ASPA, streamline operational workflows, and uphold high standards of animal welfare through integrated digital infrastructure and competency tracking.

MHRA seeks a partner to deliver a comprehensive solution that meets both immediate and long-term needs for animal facility management. The new system must support secure data capture, real-time tracking, and reporting across multiple sites, while ensuring compliance with Home Office licensing and audit standards. It should accommodate both high-frequency operational data, such as daily health checks and procedure logs, as well as long-term archival records, including historical logs, training certifications, and compliance documentation. Handling of sensitive data must be robust, with appropriate access controls and retention policies in place.

Contract 1. Animal Management Database

Supplier

- Scionics Computer Innovation

Contract value

- £289,600 excluding VAT
- £347,520 including VAT

Above the relevant threshold

Award decision date

13 January 2026

Date assessment summaries were sent to tenderers

19 January 2026

Standstill period

- End: 28 January 2026
- 8 working days

Earliest date the contract will be signed

6 February 2026

Contract dates (estimated)

- 9 February 2026 to 8 February 2029
- Possible extension to 8 January 2031
- 4 years, 11 months

Description of possible extension:

Two twelve month extensions permitted
