QUB/2485/23 Contract for for a Compact Multi-modal and Multi-scale Retinal Imaging System

Queens University Belfast

F14: Notice for changes or additional information

Notice identifier: 2024/S 000-004329

Procurement identifier (OCID): ocds-h6vhtk-0434ab

Published 8 February 2024, 8:11pm

Section I: Contracting authority/entity

I.1) Name and addresses

Queens University Belfast

University Road

Belfast

BT7 1NN

Contact

Shauna Ryan

Email

Shauna.Ryan@qub.ac.uk

Country

United Kingdom

NUTS code

UKN06 - Belfast

Internet address(es)

Main address

www.qub.ac.uk

Buyer's address

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

QUB/2485/23 Contract for for a Compact Multi-modal and Multi-scale Retinal Imaging System

Reference number

2024/S 000-002640

II.1.2) Main CPV code

- 33110000 - Imaging equipment for medical, dental and veterinary use

II.1.3) Type of contract

Supplies

II.1.4) Short description

Multiple research groups within QUB are addressing the earliest changes of disease at the complex intersection between normal ageing and early pathology in AMD (Peto, Hogg, Lengyel), Diabetic Retinopathy (Peto, Stitt, Lois, Hogg, Curtis) and Glaucoma (Azua-Blanco and Hogg), exploring interventions to delay or prevent onset. Cutting edge retinal imaging is crucial to these endeavours. Advanced retinal imaging has been at the forefront of research advances in ophthalmology; as resolution has increased, the capacity to understand disease mechanisms has advanced for all major blinding conditions. In the retina, this has advanced on two parallel fronts, firstly, improved imaging of individual retinal layers including the photoreceptor mosaic, and secondly, improved imaging of retinal vasculature and microvasculature and associated structures. At the forefront of this is the ultra-high resolution provided by adaptive optics techniques, enabling single cell resolution in vivo. To date, th
