- UKL - Wales

II.2.4) Description of the procurement

The provision of a flexible Occupational Health software package is required which will allow NHS Wales to electronically manage its occupational health process. A bi-directional interface is essential between the Occupational Health system and the Electronic Staff Record

(ESR)/workforce systems to enable seamless transfer of data/information between the systems.

The following are some essential characteristics of the requirement:-

- Provision of a fully hosted service in a secure environment.
- Dedicated telephone and e-mail support.
- Monthly reports on all incidents.
- Remote diagnostic support.
- Provision of a dedicated Customer Services Manager.
- Remote training for users.
- Data migration from the existing service.

II.2.14) Additional information

Supplier engagement sessions will be arranged for the 18th March 2022 which will comprise of a 40 minute demonstration by suppliers providing an overview of their solution along with 20 minutes questions and answers.

II.3) Estimated date of publication of contract notice

15 April 2022
