

This is a published notice on the Find a Tender service: <https://www.find-tender.service.gov.uk/Notice/004476-2022>

Award

£24,999

Ministry of Defence

F15: Voluntary ex ante transparency notice

Notice identifier: 2022/S 000-004476

Procurement identifier (OCID): ocds-h6vhtk-031818

Published 16 February 2022, 10:45pm

Section I: Contracting authority/entity

I.1) Name and addresses

Ministry of Defence

<https://contracts.mod.uk/esop/toolkit/notice/edit.do?noticeId=1042286&viewPage=1#fh>

Portsmouth

Email

hema.patel207@mod.gov.uk

Country

United Kingdom

NUTS code

UK - United Kingdom

Internet address(es)

Main address

<https://des.mod.uk/>

I.4) Type of the contracting authority

Ministry or any other national or federal authority

I.5) Main activity

Defence

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

£24,999

II.1.2) Main CPV code

- 72000000 - IT services: consulting, software development, Internet and support

II.1.3) Type of contract

Services

II.1.4) Short description

£24,999

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £24,999

II.2) Description

II.2.2) Additional CPV code(s)

- 30213100 - Portable computers
- 48517000 - IT software package

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

SUPPORT CONTRACT FOR THE PROVISION OF HARDWARE AND SOFTWARE MAINTENANCE AND SUPPORT FOR PORTABLE PILOT UNITS

II.2.5) Award criteria

Criterion: Technical 80

Criterion: Commercial (Price) 20

II.2.11) Information about options

Options: Yes

Description of options

One additional option year

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure without publication of a contract notice

- No tenders or no suitable tenders/requests to participate in response to negotiated procedure with prior publication of a contract notice
- The products involved are manufactured purely for the purpose of research, experiment, study or development
- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons
- New works/services, constituting a repetition of existing works/services

Explanation:

PCR Regulation 32 defines the circumstances for sole source procurement – including the absence of competition for technical reasons, when no reasonable alternative or substitute exists, and the absence of competition is not the result of an artificial narrowing down of the parameters of the procurement.

As such Regulation 32(2)(B), technical justification has been selected. The rationale for applying 32(2)(B) is as follows:

1. Near impossibility for another supplier to achieve the required technical performance or the necessity to use specific know-how, tools or means which only one supplier has at its disposal.
2. Specific interoperability requirements which must be fulfilled in order to ensure the functioning of the supplies, works or services that you are procuring.

Context is included below:

- The PPU system, procured competitively from INSHORE SYSTEMS LTD in 2013, was considered to have a service life of 5 years. It is now recommended that it could remain operational a further 4 years.
- The project team, has completed internal market analysis to investigate if single source

procurement is fully justified, including on legal grounds (technical reasons). The findings are that there are specific interoperability requirements to enable the PPU system to function:

(a) The PPU units are only one element of the system. The maintenance requirement also covers the RTK base station, the hardware support for the Toughbook laptops and tablet and the software support for the QASTOR system.

(b) The QASTOR software licences for the tablets and laptops are solely licenced by Inshore Systems. The software licences are the most expensive component of the PPU system, and an additional cost would be incurred to procure new licences with an alternative provider.

(c) Although the initial purchase of the PPU was off the shelf, the PPU system has a number of bespoke and proprietary elements. For example, Inshore Systems have created bespoke vessel outlines (QE Class and T45) for QHM which are essential to the effective operation of the system. Additional costs would be incurred to reproduce this capability if system support was awarded to supplier.

- It is worth note that a replacement PPU is not required, simply maintenance, support and licences for the bespoke system procured in 2013 from INSHORE SYSTEMS LTD.
- The PPU system is bespoke and includes proprietary elements, tailored to QHM requirements with the system configured to meet QHM specific requirements. An alternative service supplier would need to be trained by Inshore Systems to understand the bespoke elements, including system configuration and design.
- This would have associated cost and assumes the co-operation of Inshore Systems. The Requirement Owner believes it would be very challenging for a new supplier to take over support of the system without vital training.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract/concession

Contract No

FMSP/037 (702802453)

Title

SUPPORT CONTRACT FOR THE PROVISION OF HARDWARE AND SOFTWARE
MAINTENANCE AND SUPPORT FOR PORTABLE PILOT UNITS

A contract/lot is awarded: Yes

V.2) Award of contract/concession

V.2.1) Date of conclusion of the contract

14 February 2022

V.2.2) Information about tenders

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor/concessionaire

IN-SHORE SYSTEMS

Bristol

Country

United Kingdom

NUTS code

- UK - United Kingdom

The contractor/concessionaire is an SME

Yes

V.2.4) Information on value of contract/lot/concession (excluding VAT)

Total value of the contract/lot/concession: £24,999

V.2.5) Information about subcontracting

The contract/lot/concession is likely to be subcontracted

Section VI. Complementary information

VI.4) Procedures for review

VI.4.1) Review body

DE&S

Bristol

Country

United Kingdom
