This notice advises that the Authority has decided to negotiate a contract with the named supplier on a single source basis, and is published for reasons of transparency. If you are interested in becoming a sub-contractor for this requirement, you should apply directly to the supplier.

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure without publication of a contract notice

- No tenders or no suitable tenders/requests to participate in response to negotiated procedure with prior publication of a contract notice
- The products involved are manufactured purely for the purpose of research, experiment, study or development
- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

Combat aircraft are highly integrated, complex systems which provide a fundamental component of military capability in offensive, defensive and intelligence-gathering operations. Bringing a new design of combat aircraft into service can take up to 20 years and requires significant investment in the areas of research, development, manufacture and Test & Evaluation. The Future Combat Air System Acquisition Programme (FCAS AP) Concept and Assessment Phase is a continuation of the Research and development commenced by Team Tempest (MOD/BAE/Leonardo/MBDA/Rolls Royce) and will further the UK led Concept & Assessment Phase Option by working with International Partners to undertake concept development, technology maturation, technical demonstration planning & critical programme enablers ahead of outline business case 2 (OBC2) option down select.

It is essential within the UK led option that the supplier has significant footprint in the UK to offer a solution which is responsive and where ITAR/Export Controls can be minimised to offer the UK Freedom of action. BAE Systems uniquely possess the capability in the UK for design organisation and systems integration, to integrate engines, sensors and weapons within an efficient platform design minimising size and weight, and hence cost. Consequently BAE have been selected by the MOD to be the lead Contractor for the on behalf of UK industry in this next phase.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract/concession

Contract No

701551609

Title

Future Combat Air System Acquisition Programme

A contract/lot is awarded: Yes

V.2) Award of contract/concession

V.2.1) Date of conclusion of the contract

4 June 2021

V.2.2) Information about tenders

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor/concessionaire

BAE Systems (Operations) Limited

Warton Aerodrome

Preston

PR4 1AX

Country

United Kingdom
