Description

The Senedd Commission has a requirement for the supply, installation and maintenance of a variety of physical security measures in Senedd Members' constituency offices and homes.

The Senedd is looking to procure contractors that will work side by side with its Members Security Team (MST) to supply, install and maintain physical security measures for the constituency and homes of Members of the Senedd (MS).

The framework the Senedd Commission is creating will ensure a structured, manageable, efficient and robust service going forward, where services can be called off on an as and when basis for a variety of works relating to the enhancements of security within these offices and homes.

The framework will comprise of four regional Lots, broken down into the following areas:

- North Wales
- Mid Wales
- South East Wales
- West Wales

Framework operation description

The framework will comprise of four regional Lots, broken down into the following areas:

- North Wales
- Mid Wales
- South East Wales
- West Wales

Suppliers may bid for more than one Lot if they wish and will be able to select which Lot they wish to bid for at the Conditions of Participation stage (Stage 1) of the procurement process.

The framework will use a mixture of direct award and mini competition when awarding individual contracts to suppliers throughout the 4-year period.

Direct Award

The information submitted by suppliers as part of their bid will be used to identify the most suitable supplier to address a specific need as and when a requirement arises throughout the framework duration. Individual pieces of work will be directly awarded to a supplier by the Commission by adopting the following process:

1. Identifying the need/requirement; and

2. Assessing all of the information provided by suppliers in their bid submission (method statement, risk assessment, costs and availability).

Tenderers are asked to provide as much relevant information as possible in their bid submissions to enable a thorough assessment to be carried out during these times.

Mini Competition

Where the details provided by suppliers in their bid submissions are not specific enough for the Commission to be able to identify the most suitable supplier from carrying out the above process, or a more complex requirement arises, a mini-competition will be run. All suppliers within the particular Lot will be invited to participate in this exercise.

Proposals submitted by suppliers in these instances will be evaluated using the criteria outlined in Section 10 of the specification.

Award method when using the framework

Either with or without competition

Contracting authorities that may use the framework

Establishing party only
