#### **II.1.4) Short description**

UKRI wishes to establish a Framework Agreement to support the British Geological Survey (BGS) with replacement lighting projects at their head office (Keyworth, Nottinghamshire).

As part of BGS's strategy to reduce energy consumption we are looking to replace older style light fittings with more efficient LED alternatives. There will be additional benefits of cost saving through reduced maintenance requirements realised from increased life expectancy of installed parts and expected reduced frequency of lighting repairs.

The aim of the procurement is to put in place a framework of Suppliers, from which mini-competitions can be undertaken, to award Call-Off Contracts for individual lighting projects, as needed and afforded.
