#### **II.1.4) Short description**

The Services required are:

- System provision and integration: across supply chain systems, the Integrator shall support operational and strategic DWP Estates management by providing the required IT system, application hosting, implementation, training support and security for the management of the Services.
- Helpdesk and Work Order management: the Integrator shall provide a Helpdesk facility, which shall be the single point of contact for all DWP end-users in relation to all workplace, property and FM related service requests. This shall include the end-to-end management of planned, condition based, reactive, statutory, periodic or billable ad hoc works, maintenance projects including scheduling and any other work orders relating to the occupation of property. To facilitate this, the Integrator shall be responsible for maintaining a master asset register and master PPM schedule (together the Asset Management Services). The Integrator shall manage the asset change request process providing a holistic view and intelligence across the DWP Estate and DWP Estates supply chain.
- Data, analytics and MI reporting: the Integrator shall provide a comprehensive and flexible reporting solution to cover the functional, operational and strategic aspects of managing DWP's Estate and its Supply Chain.
- Finance & Cost management: the Integrator shall provide the Authority with management information, including cost and financial reporting, through the integration, aggregation and verification (cost audit automation and cross sectional data checks) of the Authority supply chain data.

- Supply Chain Transition: the Integrator shall support the Authority in the design, tender, mobilisation and exit of new supply chain members as required, specific to the systems interfaces and the Integrator's services.

Please note that in accordance with the "Competitive Procedure with Negotiation" procedure that DWP reserves the right to award to the contact at ITT stage. This is in accordance with Regulation 29 of the Public Contracts Regulations 2015.

The minimum requirements for this procurement are as follows:

Under regulation 29 of the 2015 Regulations, the Authority is required to specify which elements of its requirements in relation to the Services constitute the "minimum requirements" to be met by all Initial Tenders. For these purposes, the "minimum requirements " are set out below:-

## INDEPENDENCE

(a) The successful Potential Supplier shall provide an independent, impartial and transparent view of performance from each of the Authority's Supply Chain Members; including adherence and compliance to statutory and contractual obligations, operational quality and standards, customer experience/satisfaction and overall cost efficiency. In particular, the successful Potential Supplier will be required to meet the requirements set out in clauses 5.13-5.17 (Independence, Conflicts of Interest and Proscribed Conduct) of the Integrator Agreement.

(b) Notwithstanding sub-paragraph (a) above, the Authority is prepared to remove some or all of the restrictions imposed under clause 5.15 of the Integrator Agreement to allow the successful Potential Supplier to become the Authority Supply Chain Member responsible for the provision of the Estates Programme Management services.

## HELPDESK AND WORK ORDER MANAGEMENT

(a) As detailed in Schedule 2.1C of the Statement of Requirements (Helpdesk and Work Order Management) the Supplier shall provide a "Helpdesk Solution" that will

(i) play a key role in the management and maintenance of all services across the Authority Estate by acting as an interface for all building users to request reactive maintenance or support and raise any workplace, property, security and FM-related issues and queries; and

(ii) operate as both strategic management and quality monitoring tool and be the focus and key interface for all day-to-day operational activities across all aspects of Estates services.

(b) The Supplier shall also provide a proactive and efficient Work Order Management service that provides integration between building users, the Authority and the Authority Supply Chain Members to support the management of the Authority Estate and Authority Estate services.

## SYSTEMS and DATA

(a) The Supplier shall provide a System(s) Solution with configuration, suitable for recording comprehensively, accurately, and securely all Authority Estate, Asset- and Site-specific condition data and the generation, allocation, planning, implementation, and completion of all services required to operate the Authority Estate effectively.

(b) The System(s) Solution should provide three core components:

(i) a helpdesk, work order management and cost/finance component

(ii) a Data & Reporting component allowing a single view of the Authority Estate to the Authority and End Users

(iii) an Integration component to ensure seamless, timely and accurate data transfer between the Supplier, the Authority and the Authority Supply Chain Members' systems.
