### **II.2.4) Description of the procurement**

The following requirement is an addition to the original project. The initial project cost was 108,824.00 GBP and the additional work which is now required to complete the secure, cloud based, online triage and diagnostic software platform for Integrated Sexual Health is 8,647.00 GBP. This will take the total project value to 117,471.00 GBP and the reason for this VEAT

Due to the lack of an electronic system in one HB, development is required outside original STA cost to enable the online platform to be used by the HB to add to the initial record for any positives referred, resulting in one record that will also provide the surveillance reporting data required centrally. Without this additional work the development will not be possible and the HB will have to continue to use paper records and report surveillance data through excel spreadsheets.

## Section IV. Procedure

### IV.1) Description

#### IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- Additional deliveries by the original supplier

Explanation:

Public Health Wales are looking to complete work on their bespoke, secure, cloud based, online triage and diagnostic software platform for Integrated Sexual Health. The original project has identified further work required to complete the project which is unable to be carried out by another supplier due to the system being built and licenced by the incumbent supplier. Failure to complete the work will adversely affect the ability to deliver online testing in Wales, impacting patient care and leading to an increase in STIs and unintended pregnancies.

#### IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

### IV.2) Administrative information

#### IV.2.1) Previous publication concerning this procedure
