NHSBT are in a period of change, with a relatively new Exec team (ET), exciting new growth products around Plasma & a desire to modernise & improve their estates offering against a backdrop of challenging public funding.

We have not had a detailed estates strategy for some time & have historically struggled to get long term, holistic views from the organisational departments.

The estate has been underfunded for many years, with significant back log maintenance continually being pushed into the long grass & infrastructure failures becoming more frequent & more costly. The Estates team have also had a mainly stagnate structure for a decade, despite various increase in workload.

Underpinning all of this is the businesses critical deliverables (blood products etc) taking focus, energy & efforts & thus spend, resource & capacity to deliver & improve, meaning long term estates planning, discussions around consolidation & holistic location & site reviews have been nothing more than talking points.

The new ET, new growth areas, hybrid working, & a desire to improve staff wellbeing lead us to this organisational first – bringing in a 3rd party consultant to undertake a full & detailed review, strategy & planning exercise to deliver a robust 10+ year strategy for NHSBT.

II.1.5) Estimated total value

Value excluding VAT: £600,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 70000000 - Real estate services
- 73000000 - Research and development services and related consultancy services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

National

II.2.4) Description of the procurement

Introduction The consultancy will undertake a comprehensive review & analysis to formulate an Estate Strategy for NHSBT. This will include the creation of an Estates Master Plan (EMP), aiming to effectively manage, optimise, & expand NHSBT's physical assets, facilities, & infrastructure to align with organisational goals, mission, & service delivery requirements.

Objectives

- Conduct an in-depth assessment of NHSBT's current estate portfolio, encompassing properties, facilities, & infrastructure.
- Analyse future needs, growth projections, & operational requirements to guide the development of the EMP.
- Develop a comprehensive Estate Strategy & EMP that outlines phased recommendations for estate management, optimisation, & potential expansion.
- Support NHSBT's mission of delivering high-quality blood & transplant services through strategically optimised infrastructure.
- Formulate a detailed Net Zero plan for the organisation that supports both the NHS Net

Zero 2040 Target & the NHS Net Zero Building Standard

- Prepare an example Delivery model with high level costing estimates

Methodology

- Comprehensive evaluation of existing estates, including on-site assessments, stakeholder interviews, & thorough documentation review.
- Analysis of demographic, geographic, & healthcare industry trends impacting NHSBT's estate requirements, projecting future needs.
- Assessment of technological advancements & innovative solutions for integration into estate planning.
- Collaboration with key stakeholders, including operational staff, management, & relevant external bodies, to gather insights & requirements.
- Financial analysis to determine cost implications of proposed strategies & the development of a phased implementation plan.
- Risk assessments to identify potential challenges & opportunities in estate planning, along with mitigation plans.

Deliverables

- Estate Assessment Report: Detailed analysis of current estate assets, highlighting strengths, weaknesses, opportunities, & threats.
- Future Requirements Report: Projections of NHSBT's estate needs based on growth, operational demands, & industry trends.
- Estate Strategy & EMP: Comprehensive roadmap with phased recommendations for estate management, optimisation, & potential expansion.
- Compliance & Regulatory Guidelines: Documentation ensuring estates meet necessary regulatory & industry standards.
- Financial Analysis Report: Assessment of costs & financial implications associated with proposed strategies outlined in the EMP.
- Risk Assessment & Mitigation Plan: Identification of potential risks & strategies to mitigate them in estate planning.
- Net Zero strategy

Timeline

Phase 1: Estate Assessment & Analysis (4 months)

Phase 2: Estates Master Plan Development (5 months)

Phase 3: Documentation, Reporting, & Stakeholder Engagement (3 months)

Phase 4: Delivery – Whilst actual delivery is NOT part of the initial tender, but we would expect successful candidates to deliver an outline spec, plan, timeline & high-level costing of the delivery phase

Team & Expertise

- Project Management: Oversees the consultancy process & ensures alignment with NHSBT's objectives.
- Estate Analysts & Planners: Experts in real estate, facilities management, & infrastructure

planning.

- Financial Analyst: Conducts detailed financial assessments & cost analyses.
- Compliance & Regulatory Expert: Ensures adherence to healthcare industry standards & regulations.
- Stakeholder Engagement Specialist: Facilitates communication & collaboration with NHSBT stakeholders. Will require some life science type experience / SME's

Key Success Factors

- Thorough understanding of NHSBT's mission, goals, & service requirements.
 - Ongoing collaboration & engagement with key stakeholders throughout the process.
 - Strict compliance with industry standards, regulations, & best practices.
 - Development of a comprehensive, phased, & adaptable EMP & Net Zero Plan aligned with NHSBT's long-term objectives, their People Plan & wider NHS / Government targets.
- This high-level specification outlines the framework for a consultancy to deliver an Estate Strategy & Estates Master Plan for NHSBT, addressing its specific needs in managing & developing its physical assets & infrastructure.

II.3) Estimated date of publication of contract notice

2 January 2024

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No
