- Work closely with the other providers and three locality networks to shape and support the delivery of high quality youth work across the borough, in line with the identified needs.
- Develop a close working relationship with Targeted Youth Support (TYS) and other Children's Services departments to ensure that disengaged and more at risk young people receive the support they need at Lift and Rose Bowl.

not previously been reached by the universal youth work offer, through working with locality

networks and other community and grassroots groups.

- Deliver the Summerversity, Launchpad and Emotional Wellbeing Services.

Service 2: Deliver a social prescribing offer for young people linked to the youth work offer

- Build on the learnings from the pilot phase of the service, identify features of an effective social prescribing model to meet the wellbeing needs of young people within the 11-25 age range, intervening at the earliest point, and focusing on young people living with long-term or physical health conditions and/or Special Educational Needs.

- Adopt a flexible approach to targeting the service according to the recognised need locally.

This may involve expanding or altering referral partners as the service develops.

- Signpost referrals from clinical mental health services appropriately and provide for unmet

need through a non-clinical pathway focused around social and emotional wellness and prevention of mental ill-health.

- Continue to promote understanding and support for social prescribing approaches to mild

to moderate mental health needs among referring organisations, such as the importance of

wellbeing conversations.

- Embed the service within the community, including informing and participating in the Locality Youth Networks to work collaboratively with other stakeholders.
