II.2.4) Description of the procurement

We are looking to appoint a supplier who can offer a single digital solution to support sexual and reproductive healthcare provision by the three NHS trust providers in London

North West, spanning 8 London boroughs.

We require a single solution which can be accessed and viewed by healthcare professionals from any clinical site across the 3 participating trusts. Similarly, the system should capture and incorporate documentation from any episode of care at any clinical site within our network and incorporate that within a single, unified and coherent patient record. The system must minimise the administrative burden on healthcare professionals to allow them to focus on patient care. In particular, results should be delivered automatically where clinically appropriate and the system should support our statutory reporting requirements through the automatic generation of GUMCAD and SHRAD codes prompted by clinical history, test orders, prescriptions and diagnoses, rather than manually inputting these later.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents
