Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

Reasons of delays caused by Covid-19 and market volatility brought about by events unforeseeable by the contracting authority.

1. Covid-19 Delays and financial uncertainty relating to the illuminated trail event known as Christmas at the Botanics (CATB)

The concession is an annual event delivered from mid-November to early January each year (planning activity runs throughout the calendar year).

Due to Covid-19, staff availability has been unpredictable and other Public Health restrictions, in place around the operation of public events,

have created uncertainty in relation to the financial stability of the event and the operation of the concession in 2020/21 and into the 2021/22 season.

To balance the risk to RBGE and the concession holder the outcome of the 2021/22 event will be completed under the terms of the existing contract.

RBGE will be going to market in Summer 2022 for a supplier for a multi-year contract commencing 2023/24.

2. Market Conditions caused by the Covid Pandemic

From initial market engagement undertaken in 2021 it was identified that any commercial concession response to RBGE for the CATB event would carry degrees of risk in terms of the return

and stability of the supply base to service the long term requirement of the event. Covid-19 delayed activity around both the 2021/22 event and planning for the 22/23 event.

The time line planning for the event has a 12 month lead in.

RBGE will be going to market in the summer of 2022 to identify a supplier for a multi-year contract commencing 2023.

Exclusive rights of the concession holder.

IPR around the operation planning of event regulation.

Support ICT operational systems i.e. ticketing and route planning.
