### **II.2.4) Description of the procurement**

The successful Supplier shall be required to design the service delivery solution to meet the accommodation and support needs of eligible people released from courts on Bail, or those released from custody on Bail, Home Detention Curfew (HDC) or Additional License Cohort (ALC).

The Community Accommodation Service Tier-2 (CAS-2) service is a critical service for the Authority, providing accommodation for those who can more appropriately and safely be supported in the community instead of being held in custody. The Authority currently envisages that the successful Supplier shall be required to deliver 550 bed spaces in 1 to 4 bedroom properties, ensuring coverage in every probation region in England and Wales, and a minimum of 10% of the 550 bed spaces will be expected to serve females, with female bed space provided in every region.

Potential bidding entities should note that the number of bed spaces and/or value of the contract may be greater or lower than the number and value stated in this notice, as the number of spaces required may fluctuate according to demand. The contract will consist of a

mechanism to expand or decrease the number of spaces in blocks of 100 at pre-agreed prices as well as further mechanisms allowing the authority to adjust bed spaces as required. The Authority reserves the right to change the people that are eligible for these spaces.

The Authority additionally reserves the right to make these spaces available for use by government agencies or bodies other than the Authority if commissioning changes require this.

In conducting this procurement, the Authority will run a procurement process similar to the competitive procedure with negotiation route to market, to allow for any changes to be discussed and the cost model refined and developed accordingly to reflect bidder's proposed solutions. The Authority will also wish to discuss bidder proposals for improving longer term accommodation outcomes for CAS-2 residents. The Authority may during the course of service delivery add or amend to the scope of accommodation and services to a wider range of people who would otherwise be placed into custody, which will need to be linked into any longer-term strategy. As such, potential bidding entities should be aware that any numbers, volumes or values expressed in this notice are indicative only and might be subject to change during the course of service delivery.

Referrals for the CAS-2 can be made by providers of probation services and providers of prisons. People can be released to CAS-2 from any Court in England and Wales or from any prison within the prison estate in England and Wales

(<https://www.justice.gov.uk/downloads/contacts/hmps/prison-finder/prison-map.pdf>).

Properties will need to meet the decent homes standards, be of a good standard and not stand out amongst the community in which they serve. As such, one of the elements to be assessed by the Authority under the Selection Questionnaire will be potential bidding entities' experience of procuring and managing large portfolios of property and working with groups of people with complex and challenging needs.

### **II.2.5) Award criteria**
