## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

NRTS3 National Roadside Telecommunications Service

#### **II.1.2) Main CPV code**

- 64200000 - Telecommunications services

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

This opportunity relates to the provision, operation and maintenance of telecommunications services between the roadside and various central locations for National Highways , the body responsible for England's strategic road network.

The National Roads Telecommunications Services (NRTS) project currently provides services to over 30,000 end devices on 3 500 + km of the strategic road network. These telecommunications services provide connectivity between control rooms and roadside devices such as variable message signs, emergency telephones and CCTV cameras.

#### **II.1.5) Estimated total value**

Value excluding VAT: £650,000,000

#### **II.1.6) Information about lots**

This contract is divided into lots: No

### **II.2) Description**

#### **II.2.2) Additional CPV code(s)**

- 32000000 - Radio, television, communication, telecommunication and related equipment
- 45000000 - Construction work
- 48000000 - Software package and information systems
- 64216200 - Electronic information services

### **II.2.3) Place of performance**

NUTS codes

- UK - United Kingdom

Main site or place of performance

England

### **II.2.4) Description of the procurement**

The current NRTS contract is due to come to an end in March 2027 and we have an exciting opportunity for new supply partner(s) who may be interested in bidding for this exciting and high value contract.

The scope of the contract includes the maintenance and deployment of NRTS services and is expected to cover cable-based, wireless and public network technologies, alongside undertaking several related service areas (for example provision of a NRTS service management system that is capable of wider use to support our management of roadside devices). Any new supply partner(s) will need to be in place at least six months before the contract end date to ensure a smooth transition of contract management and requirements.

The duration of the new contract is anticipated to be around seven years, with the option to

extend by a further two years, with a value range of between 500,000,000

GBP and 800,000,000 GBP.

Due to the broad scope of the project, it is likely that a wide range of

suppliers will be needed to deliver the NRTS3 contract requirements and, taking this into account, we think this opportunity will most likely be of interest to:

\*Project management contractors;

\*Telecommunications equipment suppliers;

\*Telecommunications equipment maintainers;

\*Fixed telecommunications network operators;

\*Mobile telecommunications network operators (e.g. 4G, satellite, wireless

broadband);

\*Highways infrastructure civil contractors; and

\*Small and medium enterprises with relevant specialist expertise. (It is anticipated that the contract will be awarded to 1 or more prime suppliers).

Suppliers that are interested in this opportunity should note that we use a number of bespoke systems and special conditions apply to working in a motorway environment to ensure the safety of workers and the

travelling public.

Any organisation taking part in the procurement process will need to demonstrate competence in these areas.

We will be holding an Industry Day on week commencing Monday 26th February 2024 to provide further details of NRTS and the opportunities available. The event will be held in Birmingham and we will confirm the date and time in the near future. Space will be limited to no more than two representatives per organisation due to the capacity of the venue we will be using.

We will also provide access via Teams for people who may not be able to attend the event in person and we reserve the

right to further limit attendance to one person per organisation if there is a high demand for attendance at the event.

To register for this event please send your expression of interest and contact details to the email address below by 12:00 on Thursday 23rd February 2024.

Contact email address: [C&PDST@nationalhighways.co.uk](mailto:C&PDST@nationalhighways.co.uk)

<https://nrtSCO.uk/>

Please note that you DO NOT need to register on the website to view.

This Prior Information Notice (PIN) is issued solely for the purpose of commencing a market consultation exercise and does not constitute any commitment by National Highways to undertake any public procurement exercise.

Interested parties will not be prejudiced by any response or failure to respond to this PIN. Nor shall a response to this PIN guarantee an invitation to participate in this market consultation exercise or any future procurement process that National Highways may conduct. This PIN does not constitute a call for competition to procure any works or services and is not published to reduce time limited for the receipt of tenders.

National Highways is not liable for any costs, fees or expenses incurred by any party responding to this PIN or any party who may participate in the market consultation exercise.

### **II.3) Estimated date of publication of contract notice**

27 September 2024
