II.1.4) Short description

Smart Applications Management Limited (SAM) is the trading name of South West Smart Applications Limited, a Membership based central purchasing body, which owns and runs the

National Mobilities Procurement Hub for its Members.

This Framework is seeking the provision of ITSO Electronic Ticket Machines (ETMs) for passenger transport services, and their ancillary equipment. The ETMs are important in enabling a passenger to board and pay for transport, via multiple methods including ITSO Smart Cards, Contactless EMV, Tap-On Tap-Off (ToTo), Account Based Ticketing (ABT), Electronic Tokens, Multi-format Barcodes (including QR Codes), Cash, Stored Value Payment Cards and similar methods.

ETMs come in a range of sizes and types from large single fixed ETMs on Bus, to Handheld ETMs, as well as component based systems involving a fixed ETM completed by additional Tap Off Readers throughout a vehicle. ETMs can also be configured to withstand outside working in exposed conditions.

ETMs can be supported by a range of support software and licences to provide additional services to the customer. These can include areas such as a dynamic back office system, real time vehicle location, SIRI feeds for Real Time Passenger Information display systems, Automatic Vehicle Location, Driver Messaging, Dynamic Seat Reservation, Schedule Page 4 to 30 Adherence, Traffic Light Priority Control, and Multiple Payment Systems to name but a few.

This Framework is seeking to host a number of ETM types, sizes, configurations as well as support equipment, services and licences to enable the Users of the Framework to have a wide choice of supply options.

This Framework is seeking to host a number of ETM Suppliers for passenger transport services, who are committed to partnership working and the application of ITSO, EMV, ABT, Barcode and other forms of electronic ticketing for passengers.

This Framework will be available for all public sector bodies in the UK, including Local Authorities, Highway Authorities, Combined Authorities, and Regional Transport Authorities in England, Wales, Scotland, and Northern Ireland as well as National Transport Bodies such as Transport for Wales, Transport Scotland, Translink and the Department for Transport.

It will also be available for use by any bus/rail/tram/ferry operator in the UK. More detail of who the Framework is for, is outlined in Section VI.

II.1.6) Information about lots

This contract is divided into lots: Yes

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £20,000,000

II.2) Description

II.2.1) Title

ITSO Fixed Electronic Ticket Machines, Support Equipment and Related Services

Lot No

1

II.2.2) Additional CPV code(s)

- 34980000 - Transport tickets

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

Any area covered by a SAM Member within England, Wales, Scotland or Northern Ireland.

II.2.4) Description of the procurement

This Framework Lot is seeking the provision of Fixed ITSO Electronic Ticket Machines (ETMs)

for passenger transport services, and their ancillary equipment.

Fixed ETMs are important in enabling a passenger to board and pay for transport, via multiple methods including ITSO Smart Cards, Contactless EMV, Tap-On Tap-Off (ToTo), ABT, Electronic Tokens, Multi-format Barcodes (including QR Codes), Cash, Stored Value Payment Cards and similar methods.

Fixed ETMs can come in a range of sizes and types from large single fixed ETMs on baseplates, to smaller split ETMs with no baseplates, as well as component based systems involving a fixed ETM complemented by additional Tap Off Readers or other equipment throughout a vehicle.

Fixed ETMs are usually used in safe, dry environments such as on-bus or in an office, but may be interchangeable with other vehicles where the same baseplates (where relevant) are used.

Fixed ETMs can be supported by a range of support software and licences to provide additional services to the customer. These can include areas such as a dynamic back office system, real time vehicle location, SIRI feeds for Real Time Passenger Information display systems, Support for Account Based Ticketing (ABT) Systems, Automatic Vehicle Location, BODs Compliance, Driver Messaging, Dynamic Seat Reservation, Schedule Adherence,

Traffic Light Priority Control, and Multiple Payment Systems to name but a few.

This Framework Lot is seeking to host a number of Fixed ETM types, sizes, configurations as well as support equipment, services and licences to enable the Users of the Framework to have a wide choice of supply options.

This Framework Lot is seeking to host a number of ETM Suppliers for passenger transport services, who are committed to partnership working and the application of ITSO, EMV, ABT,

Barcode and other forms of electronic ticketing for passengers.

This Framework Lot will be available for all public sector bodies in the UK, including Local Authorities, Highway Authorities, Combined Authorities, and Regional Transport Authorities in England, Wales, Scotland, and Northern Ireland as well as National Transport Bodies such as Transport for Wales, Transport Scotland, Translink and the Department for Transport.

It will also be available for use by any bus/rail/tram/ferry operator in the UK. More detail of who the Framework is for, is outlined in Section VI.

II.2.5) Award criteria

Quality criterion - Name: Technical Compliance / Weighting: 50% of 60%

Quality criterion - Name: Interface Confirmation / Weighting: 20% of 60%

Quality criterion - Name: Quality Essay / Weighting: 30% of 60%

Quality criterion - Name: Social Value / Weighting: 10%

Cost criterion - Name: Price Per Customer Order / Weighting: 30%

II.2.11) Information about options

Options: Yes

Description of options

Because of the specialist nature of the technology and interface requirements, the Framework Agreement may be renewed for up to 2 additional 12 month periods - making a maximum Framework length of 72 months.

II.2) Description

II.2.1) Title

ITSO Handheld Electronic Ticket Machines, Support Equipment and Related Services

Lot No

2

II.2.2) Additional CPV code(s)

- 34980000 - Transport tickets

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

Any area covered by a SAM Member within England, Wales, Scotland or Northern Ireland.

II.2.4) Description of the procurement

This Framework Lot is seeking the provision of Handheld ITSO Electronic Ticket Machines (ETMs) for passenger transport services, and their ancillary equipment.

Handheld ETMs are important in enabling a passenger to board and pay for transport. They may support a range of validation methods including, but not exclusive: ITSO Smart Cards,

Contactless EMV, Tap-On Tap-Off (ToTo), Electronic Tokens, ABT, Multi-format Barcodes (including QR Codes), Cash, Stored Value Payment Cards and similar methods.

Handheld ETMs can come in a range of sizes and types and may be complemented by additional equipment such as separate printers or Tap Off Readers throughout a vehicle or elsewhere.

Handheld ETMs may be used in safe, dry environments such as on-bus or in an office, but equally they are used outside of a vehicle and are therefore exposed to the UK weather. As such variants of Handhelds (or the provision of protective covers) capable of withstanding different operating environments are expected within this Lot.

Handheld ETMs can be supported by a range of support software and licences to provide additional services to the customer. These may include, but are not limited to areas such as:

a dynamic back office system, real time vehicle location, SIRI feeds for Real Time Passenger Information display systems, BODs Compliance, Support for Account Based Ticketing (ABT)

Systems, Automatic Vehicle Location, Driver Messaging, Dynamic Seat Reservation, Schedule Adherence, Traffic Light Priority Control, and Multiple Payment Systems to name but a few.

This Framework Lot is seeking to host a number of Handheld ETM types, sizes, configurations as well as support equipment, services and licences to enable the Users of the Framework to have a wide choice of supply options.

This Framework Lot is seeking to host a number of Handheld ETM Suppliers for passenger transport services, who are committed to partnership working and the application of ITSO, EMV, ABT, Barcode and other forms of electronic ticketing for passengers.

This Framework Lot will be available for all public sector bodies in the UK, including Local Authorities, Highway Authorities, Combined Authorities, and Regional Transport Authorities

in England, Wales, Scotland, and Northern Ireland as well as National Transport Bodies such as Transport for Wales, Transport Scotland, Translink and the Department for Transport.

It will also be available for use by any bus/rail/tram/ferry operator in the UK. More detail of who the Framework is for, is outlined in Section VI.

II.2.5) Award criteria

Quality criterion - Name: Technical Compliance / Weighting: 50% of 60%

Quality criterion - Name: Interface Confirmation / Weighting: 20% of 60%

Quality criterion - Name: Quality Essay / Weighting: 30% of 60%

Quality criterion - Name: Social Value / Weighting: 10%

Cost criterion - Name: Price Per Customer Order / Weighting: 30%

II.2.11) Information about options

Options: Yes

Description of options

An agreement term may be extended from a standard 48 month term, by up to 2 x 12 month periods, making the maximum term available 72 months.

II.2) Description

II.2.1) Title

ITSO Electronic Ticket Machines, Support Equipment and Related Services for an Exposed Environment

Lot No

3

II.2.2) Additional CPV code(s)

- 34980000 - Transport tickets

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

Any area covered by a SAM Member within England, Wales, Scotland or Northern Ireland.

II.2.4) Description of the procurement

This Framework is seeking the provision of Electronic Ticket Machines (ETMs) for passenger transport services, and their ancillary equipment capable of use in an exposed weather

environment, such as a Ferry Jetty.

ETMs (fixed, handheld and variations thereof) capable of withstanding exposed weather conditions are important in enabling a passenger to board and pay for transport. They may

support a range of validation methods including, but not exclusive: ITSO Smart Cards, Contactless EMV, Tap-On Tap-Off (ToTo), Electronic Tokens, ABT, Multi-format Barcodes

(including QR Codes), Cash, Stored Value Payment Cards and similar methods.

They may also be capable of integrating with a 3rd party Leisure Ticketing software provider to read a 3rd party Barcode/QR code as well as send and receive messages to such 3rd party software.

ETMs capable of withstanding exposed weather conditions can come in a range of sizes and types and may be complemented by additional variants such as pole mounted ETMs for speedy ferry passenger validation.

ETMs capable of withstanding exposed weather conditions will regularly be used in adverse weather conditions, including saltwater. As such, these ETMs must be capable of withstanding different operating environments as expected within this Lot.

ETMs capable of withstanding exposed weather conditions may be supported by a range of support software and licences to provide additional services to the customer. These may include, but are not limited to areas such as: a dynamic back office system, real time vehicle location, SIRI feeds for Real Time Passenger Information display systems, BODs Compliance,

Support for Account Based Ticketing (ABT) Systems, Automatic Vehicle Location, Driver Messaging, Dynamic Seat Reservation, Schedule Adherence, Traffic Light Priority Control, Integration with 3rd Party Systems, and Multiple Payment Systems to name but a few.

This Framework Lot is seeking to host a number of ETM types capable of withstanding

exposed weather conditions, with differing sizes, configurations as well as support equipment, services and licences to enable the Users of the Framework to have a wide choice of supply options.

This Framework Lot is seeking to host a number of Suppliers of ETMs capable of withstanding exposed weather conditions for passenger transport services, who are committed to partnership working and the application of ITSO, EMV, ABT, Barcode and other forms of electronic ticketing for passengers.

This Framework Lot will be available for all public sector bodies in the UK, including Local Authorities, Highway Authorities, Combined Authorities, and Regional Transport Authorities in England, Wales, Scotland, and Northern Ireland as well as National Transport Bodies such as Transport for Wales, Transport Scotland, Translink and the Department for Transport.

It will also be available for use by any bus/rail/tram/ferry operator in the UK. More detail of who the Framework is for, is outlined in Section VI.

II.2.5) Award criteria

Quality criterion - Name: Technical Compliance / Weighting: 50% of 60%

Quality criterion - Name: Interface Confirmation / Weighting: 20% of 60%

Quality criterion - Name: Quality Essay / Weighting: 30% of 60%

Quality criterion - Name: Social Value / Weighting: 10%

Cost criterion - Name: Price Per Customer Order / Weighting: 30%

II.2.11) Information about options

Options: Yes

Description of options

An agreement term may be extended from a standard 48 month term, by up to 2 x 12 month periods, making the maximum term available 72 months.
