The Government Security Classifications (GSC) Policy came into force on 2 April 2014 and describes how HM Government classifies information assets to ensure they are appropriately protected. It applies to all information that the Government collects, stores, processes, generates or shares to deliver services and conduct business.

Minimum standards of reliability:

CCS may also assess whether the selection criteria (in respect of III.1.3

Technical and professional ability), as set out in the procurement documents, is met on request from a buyer prior to the proposed conclusion of a call-off contract with a value in excess of 20,000,000 GBP.

In-scope organisations accessing Cloud services through the Crown Commercial Service (CCS) G-Cloud Commercial Agreements should note that suppliers on these Agreements are required to demonstrate they comply with the Government's Cloud Security Principles.

For information purposes bidders should state in question 1.46 of the selection questionnaire, if they have Cyber Essentials Plus or an equivalent which has been verified by an IASME registered Body as part of their service offer, but it is not a requirement of the Commercial Agreement for suppliers to hold this certification. As per PPN 09/23: Updates to the Cyber Essentials Scheme suppliers will be required to demonstrate they comply with the Government's Cloud Security Principles.

Some purchases under this framework Agreement may have requirements that can be met under this Framework Agreement but the purchase of which may be exempt from the Procurement Regulations (as defined in Attachment 1 – About the framework within the invitation to tender documentation). In such cases, Call-offs from this Framework will be unregulated purchases for the purposes of the Procurement Regulations, and the buyers may, at their discretion, modify the terms of the Framework and any Call-off Contracts to reflect that buyer's specific needs.

CCS reserves the right to award a framework to any bidder whose final score is within 1% of the last position.
