II.1.4) Short description

The purpose of this Prior Information Notice (PIN) is to commence Pre-Market Engagement with Potential Providers that have the capability and capacity to deliver NHS Supply Chain's future Logistics service requirements.

SCCL will use the Pre- Market Engagement sessions to outline the future strategic objectives for the NHS Supply Chain, share the key requirements of the Logistics Services Provider contract, and for SCCL to capture industry information and Potential Provider views that may assist in the development of the NHS Supply Chain's Logistics Operating Model.

SCCL aims to commence procurement by late summer 2022 for the provision of Logistics services. These services are critical for the delivery of NHS Supply Chain goods procured under the CTSP frameworks which are available to 1) any NHS Trust; 2) any other NHS entity or healthcare provider (including private organisations, primary care, community settings and social care); 3) any government department, agency, or other statutory body (including Devolved Authorities, Crown Dependencies and/or Pandemic Planning Programmes), and/or 4) any private sector entity active in the UK healthcare sector on behalf of a public-sector organisation listed in 1)

to 4) above.

NHS Supply Chain manage the sourcing, delivery and supply of healthcare products,

services and food for NHS trusts and healthcare organisations across England and Wales. In 2018, SCCL (the management function of the NHS Supply Chain) entered contracts with 11 Category Tower Service Providers (CTSPs) to provide goods and services to NHS trusts and healthcare organisations across England and Wales. Goods are delivered through two enabling services which underpin the CTSP model, these enabling services are Logistics and Fulfilment, and Supporting Technology.

The scope of the current contract involves the operational logistics management of the NHS Supply Chain estate, Home Delivery Services (HDS), additional in-bound logistics and inter-depot trunking services.

NHS Supply Chain currently manages more than 8 million orders per year, across 94,000 order points and 17,465 locations and delivers over 28 million lines of picked goods to the NHS annually. Its systems consolidate orders from over 930 suppliers, saving trusts time and money by removing duplication of overlapping contracts.

The above scope may be further extended to incorporate the provision of pandemic response logistics, this may include the storage and fulfilment of legacy Covid 19 related consumables and equipment.

SCCL would like to meet with Potential Providers who are advised to refer to 'ADDITIONAL INFORMATION SECTION V1.3' below for further important information about the Market Engagement Sessions which the pre-market engagement questionnaire.

Please note that the final structure and approach to the Operating Model for Logistics services (including in respect of any lot strategy) will be determined subsequent to the market engagement events and will be set out in the Contract Notice for any related future procurement.

Any values stated within this PIN are indicative only of the current contracts. Anticipated contract values will be included in the Contract Notice for any related future procurement.

This procurement is at the pre-tender stage.

The commencement of the formal procurement process will be the subject of a separate notice (Contract Notice). Potential Providers should note that they will need to respond to the Contract Notice at the appropriate time.

Please note that the estimated date of publication of the Contract Notice set out in Section II.3 below is subject to change.

UK Procurement opportunities are now published on the new UK Find a Tender Service (FTS) and Contracts Finder, therefore please monitor those sites for the notification of the release of the documents for this procurement.
