Railway services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

SWR Provision of Station Information & Security Systems (SISS) Maintenance Services

II.1.2) Main CPV code

- 48810000 - Information systems

II.1.3) Type of contract

Supplies

II.1.4) Short description

Overview of Requirements

SWR are keen to identify a Contractor that either holds ISO55001 currently or can demonstrate how they can support SWR SISS in their journey to achieve ISO certification.

This ITN is designed to identify a preferred Contractor for the provision of SISS (Station Information and Security Systems) maintenance [preventative and corrective] at all leased premises on the SWR network, alongside associated activities such as reporting and provision of a customer help-desk - together the "Support Services".

This includes, but is not limited to:

Video Surveillance Systems,

Customer Information Systems,

Public Address Systems,

Remote Controlled Access Systems,

Body Worn Video Systems,

Train Dispatch Closed-Circuit Television,

Passenger Help Points,

Drivers Late Notice Screens,

Staff Information Screens,

Clocks in Guards Depots,

Clocks in Train Depots.

Dynamic Disruption Screens,

Multi-Modal Information Screens.

Concentrators in Depots and Signal Boxes.

South Western Railway (the Client) is seeking to implement a maintenance and repair regime to ensure the SISS assets are maintained in accordance with relevant standards and are repaired by suitably qualified engineers to ensure they achieve their expected lifecycle.

This will ensure that all station SISS assets are working seamlessly and fully integrated to ensure that there is an ongoing availability of the overall systems to the Contractor. video surveillance and body worn video systems will be fully operational for the purpose of crime prevention, security, and public safety, the customer information, public address and help point systems will be available to ensure our customers always receive real-time information and can all for assistance. Furthermore, our remote access systems will be available so that Customers have access to facilities at unstaffed stations.

SWR leased premises have a mixture of SISS assets. The successful Contractor shall ensure these assets are maintained in line with relevant NR & Industry Standards along with SWR requirements, ensuring we have sufficient contract management resources.

These activities are required as part of committed obligations associated with the Department for Transport National Rail Contract, Office of Road and Rail license conditions, obligations to Network Rail under Depot and Station Access Conditions and our working practices and policies.

There may also be opportunities to provide asset renewals and enhancements at our leased premises through identified funding streams and opportunities throughout the life of the contract.

The contract period is up to 30 November 2028 with an option for a 2-year extension, one year at a time.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 48810000 - Information systems

II.2.3) Place of performance

NUTS codes

- UKI - London
- UKJ - South East (England)
- UKK2 - Dorset and Somerset

II.2.4) Description of the procurement
