- UKM - SCOTLAND
- UKL - WALES
- UKK - SOUTH WEST (ENGLAND)
- UKJ - SOUTH EAST (ENGLAND)
- UKH - EAST OF ENGLAND
- UK - UNITED KINGDOM

II.2.4) Description of the procurement

Magnox is seeking early engagement with suppliers on how they can support delivery of the new Decommissioning & Asbestos Removal (DAR) framework.

A framework contract worth up to £485m for decommissioning and asbestos removal will be the focus of a Magnox webinar for suppliers. The webinar will be held on 21st April 2021 and is part of the company's on-going engagement with the supply chain as it drives forward its decommissioning mission.

Companies are encouraged to register early for the event about the four-year multi-supplier framework contract, which will involve asbestos removal, demolition and deplanting across Magnox's 12 sites around the UK. Some of the work will be in conventional areas and some will be delivered in radiological contaminated areas.

Linda Sapsford, Head of Procurement and Supply Chain, said: "Magnox is keen to share news of this framework contract with demolition and asbestos contractors, both large and small, and to seek their input to help the development of our procurement strategy.

Suppliers should deliver value for the UK taxpayer while also maintaining the highest standards of safety and environmental performance.

Companies are invited to register for the event using the link below (Note this link is to be added when made available by communications and prior to issue of the Notice)

This Notice and Supplier Day are in advance of the main competition notice when the ITT documentation will be made available. There are no ITT documents available with this PIN and suppliers do not need to complete a Selection Questionnaire.

Suppliers can register for the Supplier Event by clicking the following link:
<https://www.eventbrite.co.uk/e/decommissioning-and-asbestos-removal-framework-webinar-tickets-145888571645>

The proposed framework is to replace the current De-planting, Demolition and Bulk Asbestos Removal Framework.

II.2.14) Additional information

The Key outcomes are:

- 1.Feedback on the proposed scope of work
- 2.Feedback on proposed lotting structure
- 3.Level of supplier interest in tendering for new framework
- 4.Information on how the suppliers can contribute to Social Value

Our proposed lotting approach:

Lot 1 Conventional Deplanting, Asbestos Removal and Demolition.

Lot 2 Active Deplanting, Asbestos Removal and Demolition.

II.3) Estimated date of publication of contract notice

24 August 2021

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
