Section I: Contracting entity

I.1) Name and addresses

Nexus

33 St James' Blvd

Newcastle upon Tyne

NE14AX

Contact

Julie Warnett

Email

tenders@nexus.org.uk

Telephone

+44 7879667318

Country

United Kingdom

NUTS code

UKC - North East (England)

Internet address(es)

Main address

https://www.nexus.org.uk

I.3) Communication

The procurement documents are available for unrestricted and full direct access, free of charge, at

www.Nepo.org

Additional information can be obtained from the above-mentioned address

I.6) Main activity

Urban railway, tramway, trolleybus or bus services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

NEX21/07 Bus Contracts Software System

II.1.2) Main CPV code

• 48900000 - Miscellaneous software package and computer systems

II.1.3) Type of contract

Supplies

II.1.4) Short description

Nexus will shortly be issuing an ITT for the development for a Bus Contracts Monitoring and Payments system. This system will be used to monitor the performance of the approximately 200 bus services operated under contract and paid for by Nexus.

The opportunity is to develop a software solution to consolidate all aspects of bus contract management including the performance of the bus service, financial calculation and management of such contracts. Contract management is currently carried out using a number of stand-alone software packages. The current system is a desk top solution hosted by Nexus, it is intended to replace this system with a web based solution written in a prescribed programming language, C#.

This opportunity is for the supply and installation of a new, single software solution which consolidates all current aspects of contract management. The proposed system should, as a minimum, be fully populated with all current or live bus contracts. Nexus intend that this software will be web based, written in a prescribed programming language, C#, initially hosted by Nexus, transportable, to be possibly moved into the cloud at a later date.

The required system must allow Nexus to manage, monitor the performance of, administer and calculate payments for its contracted bus services. The contracts are awarded by Nexus to bus operators who must also have access to the system in order that they can comply with their contractual obligations.

For further information regarding the tender opportunity Nexus would like to offer a briefing session to interested parties prior to the release of the tender documents. Please contact Tenders@nexus.org.uk for further details.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKC - North East (England)
