The Life Sciences Vision published by the Office for Life Sciences (OLS) in July 2021 identified “improving translational capabilities in neurodegeneration and dementia” as one of its flagship healthcare mission challenges. On the 14th August 2022 the Prime Minister launched the Dame Barbara Windsor Dementia Mission, along with £95m funding. This funding was reaffirmed in a further announcement on the Healthcare Missions on the 28th November 2022.

To deliver this mission, OLS intend to develop innovative research tools and boost the number and speed of clinical trials in dementia and neurodegeneration.

The Dame Barbara Windsor Dementia Mission Market Engagement Day hosted by OLS will take place on 17th March 2023 at 10:00-12:00pm and will be hosted via the Microsoft Teams Platform.

You must register for the event here <https://forms.office.com/e/UcMYDrLpNh>.

We will be testing the proposals to deliver the mission at the market engagement day, where your input would be greatly valued.

Please still register through the link even if you cannot attend the day as it will be recorded, and we will be sending out the slides, a Q&A from the day and a survey asking details around your interest in the dementia mission to all individuals who register through the link.
