Tenders or requests to participate must be submitted to the above-mentioned address

**I.6) Main activity**

Electricity

---

## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Process Mining Software

Reference number

AG

#### **II.1.2) Main CPV code**

- 48461000 - Analytical or scientific software package

#### **II.1.3) Type of contract**

Supplies

#### **II.1.4) Short description**

SSE is a leading energy company whose purpose is to provide the energy needed today while building a better world of energy for tomorrow. Its strategy is to create value for shareholders and society from developing, operating and owning energy and related infrastructure in a sustainable way.

Operating three core businesses and six complementary business, SSE contributed almost £8bn to the UK economy in FY 2020 and plans to invest £7.5bn over the next 5 years.

Following the development of a Digital Strategy, SSE Procurement are planning to implement a process mining solution in the summer of 2021. It is envisaged that initially this solution will be connected to the main procurement systems with an expectation that there will be a requirement to deploy to other areas within SSE shortly afterwards.

The scope of the PQQ is the delivery of a suitable IT solution that will extract event logs and use them to generate visualizations and other output that give a full picture of any bottlenecks, inefficiencies, or gaps in SSE's processes. This should also offer the capability to fix processing issues through system generated actions and automations.

#### **II.1.5) Estimated total value**

Value excluding VAT: £200,000

### **II.1.6) Information about lots**

This contract is divided into lots: No

## **II.2) Description**

### **II.2.3) Place of performance**

NUTS codes

- UK - United Kingdom

Main site or place of performance

UK

### **II.2.4) Description of the procurement**

SSE is a leading energy company whose purpose is to provide the energy needed today while building a better world of energy for tomorrow. Its strategy is to create value for shareholders and society from developing, operating and owning energy and related infrastructure in a sustainable way.

Operating three core businesses and six complementary business, SSE contributed almost £8bn to the UK economy in FY 2020 and plans to invest £7.5bn over the next 5 years.

Following the development of a Digital Strategy, SSE Procurement are planning to implement a process mining solution in the summer of 2021. It is envisaged that initially this solution will be connected to the main procurement systems with an expectation that there will be a requirement to deploy to other areas within SSE shortly afterwards.

The scope of the PQQ is the delivery of a suitable IT solution that will extract event logs and use them to generate visualizations and other output that give a full picture of any bottlenecks, inefficiencies, or gaps in SSE's processes. This should also offer the capability to fix processing issues through system generated actions and automations.

### **II.2.5) Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

### **II.2.6) Estimated value**

Value excluding VAT: £200,000

### **II.2.7) Duration of the contract, framework agreement or dynamic purchasing system**

Duration in months

36

This contract is subject to renewal

Yes

Description of renewals

Extension possible at a later date

### **II.2.10) Information about variants**

Variants will be accepted: Yes

### **II.2.11) Information about options**

Options: Yes
