Additional information can be obtained from the above-mentioned address

Tenders or requests to participate must be submitted electronically via

www.sse.com

Tenders or requests to participate must be submitted to the above-mentioned address

I.6) Main activity

Electricity

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Process Mining Software

Reference number

AG

II.1.2) Main CPV code

- 48461000 - Analytical or scientific software package

II.1.3) Type of contract

Supplies

II.1.4) Short description

SSE is a leading energy company whose purpose is to provide the energy needed today while building a better world of energy for tomorrow. Its strategy is to create value for shareholders and society from developing, operating and owning energy and related infrastructure in a sustainable way.

Operating three core businesses and six complementary business, SSE contributed almost £8bn to the UK economy in FY 2020 and plans to invest £7.5bn over the next 5 years.

Following the development of a Digital Strategy, SSE Procurement are planning to implement a process mining solution in the summer of 2021. It is envisaged that initially this solution will be connected to the main procurement systems with an expectation that there will be a requirement to deploy to other areas within SSE shortly afterwards.

The scope of the PQQ is the delivery of a suitable IT solution that will extract event logs and use them to generate visualizations and other output that give a full picture of any bottlenecks, inefficiencies, or gaps in SSE's processes. This should also offer the capability to fix processing issues through system generated actions and automations.

II.1.5) Estimated total value

Value excluding VAT: £200,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

UK

II.2.4) Description of the procurement

SSE is a leading energy company whose purpose is to provide the energy needed today while building a better world of energy for tomorrow. Its strategy is to create value for shareholders and society from developing, operating and owning energy and related infrastructure in a sustainable way.

Operating three core businesses and six complementary business, SSE contributed almost £8bn to the UK economy in FY 2020 and plans to invest £7.5bn over the next 5 years.

Following the development of a Digital Strategy, SSE Procurement are planning to implement a process mining solution in the summer of 2021. It is envisaged that initially this solution will be connected to the main procurement systems with an expectation that there will be a requirement to deploy to other areas within SSE shortly afterwards.

The scope of the PQQ is the delivery of a suitable IT solution that will extract event logs and use them to generate visualizations and other output that give a full picture of any bottlenecks, inefficiencies, or gaps in SSE's processes. This should also offer the capability to fix processing issues through system generated actions and automations.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £200,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

36

This contract is subject to renewal

Yes

Description of renewals

Extension possible at a later date

II.2.10) Information about variants

Variants will be accepted: Yes
