II.2.3) Place of performance

NUTS codes

• UK - United Kingdom

Main site or place of performance

Contracts awarded will be mainly for performance within the UK, although contracts may be awarded for other locations.

II.2.4) Description of the procurement

ScottishPower is part of the Iberfrola Group, which uses Go Supply as its global supplier registration partner.

Go Supply is a qualification system under Article 77 of Directive 2014/25/EU, which is operated by Go Supply. The platform provides a system for ScottisPower to select suppliers

for invitation to participate in regulated procurement procedures. The platform can be accessed at the following URL: https://www.mygosupply.com

Go Supply may also be used in the compilation of tender lists below the thresholds.

ScottishPower may alternatively make separate calls for competition in Find A Tender for certain individual requirements.

Go Supply is based on a coding system for works, supplies and services against which suppliers are registered on the system. The full list of Iberdrola product codes is available at the following URL: https://www.mygosupply.com

Vendors not already registered with Go Supply should apply using the contact details at Section I.1) in order to ensure that their details are available to ScottishPower.

Vendors already registered on Go Supply must ensure that their registration details are up to date in order to remain visible to ScottishPower. This can be done by visiting http://www.mygosupply.com and logging in using their unique login details.

Only vendors registered to Go Supply 360 level will be considered for regulated tenders.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.8) Duration of the qualification system

Indefinite duration

Renewal of the qualification system

Section III. Legal, economic, financial and technical information

III.2) Conditions related to the contract

III.2.2) Contract performance conditions

Go Supply registration will be the first stage of qualification. You can join via https://www.mygosupply.com

Having completed the registration you will be required to register with SAP Ariba and Iberdrola's IBuy tendering system at http://ibuy.iberdrola.com.

Full details are available at https://www.scottishpower.com/pages/suppliers.aspx

Section IV. Procedure

IV.2) Administrative information

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

Section VI. Complementary information

VI.4) Procedures for review

VI.4.1) Review body

See Section V1.3

See Section V1.3

Country

United Kingdom

VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

For contracts subject to the Utilities Contracts Regulations 2016, utilities are required to incorporate a standstill period at the point information on the proposed award of the contract is communicated to tenderers. That notification is required to provide full information on the award decision. The standstill period, which will be for a minimum of 10 calendar days, provides time for unsuccessful tenderers to challenge the award decision

before the contract is entered into.

Where the Utilities Contracts Regulations 2016 (SI 2016 No 274) apply, provision is made for aggrieved parties who have been harmed or are at risk of harm by a breach of duty under

the regulations to take action in the High Court (England, Wales and Northern Ireland).

Where the Utilities Contracts (Scotland) Regulations 2016 (SSI 2016 No 49) apply, provision is made for aggrieved parties who have been harmed or are at risk of harm by a

breach of duty under the regulations to take action in the Sheriff Court or the Court of Session.
