Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

Clarion Futures commissioned GRE Consulting to undertake a short Feasibility Study to explore the practical options for implementing such a crisis scheme that offer temporary relief to households in financial crisis and how it could be used to increase the chances of positive behaviour outcomes being achieved through its Money Guidance service.

This feasibility study provides the contextual research and consultation undertaken with other leading social housing providers, local authorities and fulfilment providers already delivering similar schemes as well as studies on this subject matter. The background has been used to inform the development of a series of recommendations for the proposed emergency food and fuel scheme.

The Support Fund has been in existence since 2015; during this time, we have run separate procurement exercises for white goods, fuel vouchers and beds. These have produced limited interest from suppliers. We constantly monitor the market and keep abreast of developments in the housing sector to ensure our services are value for money and sector leading; to date we are unaware of other providers in the marketplace who could fulfil all of these requirements.

Clarion Futures have identified one supplier who would be able to provide requirements with support from their supply chain/sub-contractors. Charis Grants Ltd is currently supplier for food vouchers, but early supplier engagement indicated that Charis could act as key supplier.

If no response received from other organizations, then we will be entitled to direct award to the supplier of choice Charis Grants Ltd.
