## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Port of Dover Maintenance Dredging 2024-2028

#### **II.1.2) Main CPV code**

- 98360000 - Marine services

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

The works consist of the maintenance dredging of the berth, basins and approaches in the Port of Dover. The primary scope of works is the restoration of advertised depths within the Inner Harbour, Outer Harbour and the Eastern Docks. Dredging shall be carried out by trailing suction hopper dredger only. Bed levelling is also permitted. The sediment sample test results classify the sediment as the fine sandy silt.

With respect to disposal, material from the Port of Dover can only be placed at the designated offshore disposal site, DV010.

Any navigation beacons which have to be removed in connection with the Contract will be removed and re-established by the Contractor.

Pre-dredge surveys to be carried out by Employer using a multi-beam echo sounder, resulting in near total seabed coverage, intermediate or during dredge surveys conducted by the contractor will be verified by the Employer.

#### **II.1.6) Information about lots**

This contract is divided into lots: No

### **II.2) Description**

#### **II.2.2) Additional CPV code(s)**

- 98360000 - Marine services

### **II.2.3) Place of performance**

NUTS codes

- UKJ - South East (England)

Main site or place of performance

The Port of Dover

### **II.2.4) Description of the procurement**

The works consist of the maintenance dredging of the berth, basins and approaches in the Port of Dover. The primary scope of works is the restoration of advertised depths within the Inner Harbour, Outer Harbour and the Eastern Docks. Dredging shall be carried out by trailing suction hopper dredger only. Bed levelling is also permitted. The sediment sample test results classify the sediment as the fine sandy silt.

With respect to disposal, material from the Port of Dover can only be placed at the designated offshore disposal site, DV010.

Any navigation beacons which have to be removed in connection with the Contract will be removed and re-established by the Contractor.

Pre-dredge surveys to be carried out by Employer using a multi-beam echo sounder, resulting in near total seabed coverage, intermediate or during dredge surveys conducted by the contractor will be verified by the Employer.

### **II.2.5) Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

### **II.2.7) Duration of the contract, framework agreement or dynamic purchasing system**

Start date

2 September 2024

This contract is subject to renewal

Yes

Description of renewals

4 year Framework with 1+1 extension

#### **II.2.10) Information about variants**

Variants will be accepted: No

#### **II.2.11) Information about options**

Options: Yes

Description of options

4 year Framework with 1+1 extension

---

### **Section III. Legal, economic, financial and technical information**

#### **III.1) Conditions for participation**
