Regional or local authority

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Electric Vehicle Charging Structure Expansion for Falkirk and Clackmannanshire Council

Reference number

PS/313/24

II.1.2) Main CPV code

- 65300000 - Electricity distribution and related services

II.1.3) Type of contract

Services

II.1.4) Short description

The purpose of the EVIF is to enable local authorities to expand public Electric Vehicle Charging Infrastructure (EVCI) networks across Scotland.

The vision for EVCI is a comprehensive, resilient, accessible, customer focussed network that works for everyone. The aspiration is a network that will be designed to ensure efficiencies and maximise the level of private sector investment to enable expanded public charging network opportunities, in line with both local priorities, as well as the Scottish Government's vision for public EV charging.

As part of these plans, it is intended to develop new commercial models to encourage a transition away from a public EVCI network supported by government subsidy and unlock private sector investment.

Information gathered as part of this PIN will help design and shape the forthcoming tendering process.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKM76 - Falkirk
- UKM72 - Clackmannanshire and Fife

II.2.4) Description of the procurement
