Tender

UKRI-5382 ZnS:Ag/6LiF Neutron Scintillator Screens

UK Research & Innovation (UKRI)

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2026/S 000-005787

Procurement identifier (OCID): ocds-h6vhtk-05fc90

Published 22 January 2026, 2:08pm

Changes to notice

This notice has been edited. The [previous version](#) is still available.

To extend the tender response deadline from 3rd February 2026 to 17th February 2026.

Scope

Reference

UKRI-5382

Description

The ISIS Neutron and Muon Source is a world-leading centre for research using neutrons and muons, supporting a broad scientific user community across disciplines such as materials science, physics, chemistry, and engineering. As part of its detector development programme, ISIS manufactures a range of in-house detectors, including wavelength-shifting fibre (WLSF) based scintillation detectors, which are critical for capturing and characterising neutron interactions with high spatial and temporal resolution.

A key component of these detectors is the neutron scintillator screen which is composed of a zinc sulphide silver activated phosphor and an enriched lithium-6 fluoride neutron-sensitive converter material. Following neutron capture in the converter, light is emitted from the phosphor subsequently collected by wavelength-shifting fibres and guided to photodetectors for signal processing. The quality, consistency and performance of the scintillator screen directly impact detection efficiency and effective gamma?ray and background discrimination.

To support new detector builds, particularly for the HRPD-X, SANDALS II and WISH II instruments, a framework contract is required to ensure a reliable supply of high-performance ZnS:Ag/6LiF screens that meets the stringent technical and operational demands of ISIS instruments. These screens must be provided in different shapes, sizes and thicknesses to match the range of instrument beamline geometries and neutron fluxes encountered at ISIS. Some of the screens will be operated in vacuum and must be capable of maintaining performance within a vacuum environment for the lifetime of the detector, typically 15 years.

The purpose of this tender is to guarantee a steady supply of ZnS:Ag/6LiF neutron scintillator screens to cover the needs of the ISIS Endeavour Programme, a 10-year programme to upgrade the suite of ISIS instruments. It will ensure a consistent and reliable product is always being provided throughout the programme. It will help to reduce the need for generating repeat tendering and for storing large quantities of product on site until needed.

Total value (estimated)

- £1,760,000 excluding VAT
- £2,112,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 30 March 2026 to 29 March 2030
- 4 years

Main procurement category

Goods

CPV classifications

- 38000000 - Laboratory, optical and precision equipments (excl. glasses)

Contract locations

- UKJ14 - Oxfordshire

Participation

Particular suitability

- Small and medium-sized enterprises (SME)
- Voluntary, community and social enterprises (VCSE)

Submission

Enquiry deadline

4 February 2026, 2:00pm

Tender submission deadline

17 February 2026, 2:00pm

Submission address and any special instructions

To access this opportunity please click here: https://ukri2.my.salesforce-sites.com/Prod__CS_ContractPage?SearchType=Projects&uid=a1MTm000009PbVMAU&searchStr=5382&sortStr=Recently+Published&page=1&filters=&County= Please note the following steps for accessing this opportunity via the Atamis eSourcing platform: 1. Log in or create an account here: <https://ukri2.my.site.com> 2. Navigate to the opportunity in the Find an Opportunity section of the site or via the direct access link above. 3. Select Register Interest (you will not be able to view the tender documentation without registering an interest). 4. Go back to the main menu and navigate to the My Proposals and Quotes section of the site. 5. Select the opportunity from the list. Tender Documents for download are found in the Documents tab.

Tenders may be submitted electronically

Yes

Languages that may be used for submission

English

Award decision date (estimated)

18 February 2026

Award criteria

Name	Type	Weighting
Technical/Quality	Quality	75.00%
Price	Price	25.00%
