### Scope

### Reference

WAR - 0019

### Description

Warwickshire County Council (WCC) County Highways, has a duty to maintain the carriageway network. To ensure we know the condition of the network and can plan treatments to keep the network in as good condition as possible we carry out road condition surveys. There is also a requirement by DfT to provide annual data in line with PAS 2161 and Road Condition Indicator (RCI) 130-01 & RCI130-02 for the classified network.

This was not a direct award but a restricted tender from an approved list of suppliers from the Department of Transport that authorities can select from.

Local highway authorities are expected to select a technology that is PAS2161 compliant. The list of suppliers were technology providers of PAS2161 demonstrated survey technologies.

Single supplier - technical reasons

No UK4 notice was created for this procurement as submissions were restricted to an approved list of suppliers defined by Department for Transport.

Local highway authorities are expected to select a technology for this service that is PAS2161 compliant. The list of suppliers were technology providers of PAS2161 demonstrated survey technologies. More information and the list of providers can be found here. <https://ukrlg.ciht.org.uk/ukrlg-home/guidance/road-condition-information/data-collection/pas-2161/>

A further competition was run between the suppliers identified but due to no UK 4 notice and the list of suppliers is not from a framework, we are placing this UK5 transparency notice accordingly.
