Section II: Object

II.1) Scope of the procurement

II.1.1) Title

James Parsons Riser 10 Flue Removal Scheme

Reference number

EST LJMU 22/23-008

II.1.2) Main CPV code

- 45000000 - Construction work

II.1.3) Type of contract

Works

II.1.4) Short description

There is an initial known project which is a definite requirement once this tender has been awarded. You are invited to submit the Supplier Questionnaire to access capability for the provision of the removal of redundant flue pipes and infilling floor voids in riser 10, which runs the full seven floors of James Parsons building, at LJMU Liverpool John Moore's University. The works also involve ancillary refurbishment works to various areas within the James Parsons building. Please note, beyond this initial project, LJMU do not guarantee any further revenue under this agreement, however if we do have any further related projects that require these services, we will allocate to the successful bidder (with the caveat that pricing is realistic and sustainable)

The proposed works involve (but not limited to) the following:

- o Appointment of a UKAS accredited asbestos removal contractor to remove of 2nr existing asbestos containing flues from a 7-storey riser
- o Following removal of the flue pipes, the floor voids are to be infilled on each level of the building with a series of universal beam structural steel sections to form a support system for a mixture of 8mm durbar plates and GRP grating infills
- o Strip out and refurbishment works to WC's and a cleaners store on the 1st floor of James Parsons building
- o Minor refurbishment works to offices within the James Parsons building

Minimum Turnover

The minimum annual turnover bidders must have achieved is ?3m. Failure to have ?3m T/O or above will result in disqualification from this procurement exercise.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKD - North West (England)
