## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

SCC - Remedial Works to the Existing Concrete Prince George Extension on Southend-on-Sea Pier

Reference number

DN693021

#### **II.1.2) Main CPV code**

- 45262330 - Concrete repair work

#### **II.1.3) Type of contract**

Works

#### **II.1.4) Short description**

Southend-on-Sea City Council are seeking a suitably qualified and experienced contractor to carry out structural repairs and the installation of a suitable method of corrosion protection to extend the life of both the existing, undamaged, and repaired sections of the Prince George extension at the sea end of the Pier. The works will consist of breaking out all loose and damaged concrete to expose corroded reinforcement, the replacement of the corroded reinforcement and the repair of the concrete. The concrete repair will incorporate the installation of a titanium mesh which will be connected to a small electric current to provide protection against future corrosion. The whole of the existing structure will then be encapsulated in a sprayed concrete finish maintaining the Pier's existing appearance. The works will be carried out under a NEC4 Engineering and Construction Contract Option A with Client amendments over a period of approximately 2 years.

The procurement process will be conducted electronically via the Council's e-tender facility Pro-Contract: <https://procontract.due-north.com>. To view this opportunity please register, free of charge, on the e-tendering portal under Reference DN693021, then look at "My Opportunities" where you will be able to find, view and download all the tender documents. All clarifications and responses must be submitted via the e-tendering portal. The tender documents are only available from the Pro-Contract site and are free of charge.

#### **II.1.6) Information about lots**

This contract is divided into lots: No

## **II.2) Description**

### **II.2.2) Additional CPV code(s)**

- 45212350 - Buildings of particular historical or architectural interest
- 45241300 - Pier construction work
- 45244000 - Marine construction works
- 71337000 - Corrosion engineering services

### **II.2.3) Place of performance**

NUTS codes

- UKH31 - Southend-on-Sea

### **II.2.4) Description of the procurement**

Southend-on-Sea City Council are seeking a suitably qualified and experienced contractor to carry out structural repairs and the installation of a suitable method of corrosion protection to extend the life of both the existing, undamaged, and repaired sections of the Prince George extension at the sea end of the Pier. The works will consist of breaking out all loose and damaged concrete to expose corroded reinforcement, the replacement of the corroded reinforcement and the repair of the concrete.
